This Supplementary Product Disclosure Statement ("**SPDS**") relates to the Platinum Trust[®] Product Disclosure Statement dated 1 October 2024 offering C, P and E Unit Classes of the Platinum Trust Funds, as supplemented by the Platinum Trust[®] Supplementary Product Disclosure Statement dated 25 February 2025 (the "**PDS**").

The purpose of this SPDS is to inform existing and prospective investors of updates to the Platinum International Fund and the Platinum Global Fund (Long Only).

This SPDS is an important document and must be read together with the PDS.

On 21 August 2025, Platinum Investment Management Limited ("**Platinum**") as responsible entity for the Platinum International Fund and responsible entity for the Platinum Global Fund (Long Only) entered into an investment advisory agreement with L1 Capital International Pty Ltd (ACN 628 068 717) ("**L1 International**"). Pursuant to this agreement and, subject to and conditional on, the proposed merger between Platinum Asset Management Limited ("**PTM**") and First Maven Pty Limited ("**L1 Capital**") being approved by shareholders at the PTM general meeting on 22 September 2025 ("**Merger**"), L1 International shall assume investment advisory responsibilities for the Platinum International Fund and the Platinum Global Fund (Long Only) on and from 1 October 2025 ("**Effective Date**").

If the Merger proceeds, the investment advisory agreement will facilitate the provision of investment recommendations from L1 International to Platinum in relation to the Platinum International Fund and the Platinum Global Fund (Long Only), for implementation by Platinum. The term of the advisory agreement will be no more than three months. During the term, PTM (to be renamed as the L1 Group Limited) will evaluate the necessary requirements to facilitate the entry into an ongoing discretionary investment management agreement between Platinum and L1 International in respect of the Platinum International Fund and the Platinum Global Fund (Long Only).

This SPDS is an important document and must be read together with the PDS. The information set out below is taken to be included in the PDS. Terms defined in the PDS have the same meaning in this SPDS. If there is a conflict between the PDS and this SPDS, this SPDS will prevail.

This SPDS will be made available on www.platinum.com.au/media/platinum/Default/pt_pds.pdf. For additional information please contact Platinum's Investor Services.

Accordingly, the following terms of the PDS will be amended with effect from the Effective Date, only in the event that the Merger between PTM and L1 Capital proceeds:

- On the introductory page, replace the first paragraph under the heading “Important Notice to Investors” with the following paragraph:

“Platinum Investment Management Limited ABN 25 063 565 006 AFSL 221935, trading as Platinum Asset Management (“**Platinum**”), is the responsible entity (“**Responsible Entity**”) for the Platinum Trust Funds (“**Funds**”) offered under this Product Disclosure Statement dated 1 October 2024 (“**PDS**”). Platinum also acts as the investment manager for the Funds other than for the Platinum International Fund and the Platinum Global Fund (Long Only). Effective 1 October 2025, Platinum has appointed L1 International as the investment adviser for the Platinum International Fund and the Platinum Global Fund (Long Only). Under the investment advisory agreement, L1 International has been appointed to provide investment recommendations to Platinum in relation to the Platinum International Fund and the Platinum Global Fund (Long Only), for implementation by Platinum. The term of the investment advisory agreement is for a period of no more than three months. During the term of the investment advisory agreement, L1 Group Limited will evaluate the necessary requirements to facilitate the entry into an ongoing discretionary investment management agreement between Platinum and L1 International in respect of the Platinum International Fund and the Platinum Global Fund (Long Only).”

- On the introductory page, replace the “Contents” section as follows:

Investment Adviser for Platinum International Fund and Platinum Global Fund (Long Only)”	L1 Capital International Pty Limited

- On page 3, the section titled “Platinum Asset Management” is replaced with the following:

“Investment Management

Platinum Asset Management

Platinum is an Australian-based funds management business specialising in international equities. Platinum is the Responsible Entity of the Funds and the investment manager for the Funds described in this PDS, other than the Platinum International Fund and the Platinum Global Fund (Long Only).

Platinum manages approximately A\$8 billion, with around 6% of funds from Investors in New Zealand, Europe, America, Asia and the rest from Australian Investors* and is a fully owned subsidiary of Platinum Asset Management Limited (“**PTM**”) ABN 13 050 064 287, a company listed on the Australian Securities Exchange.

Platinum has an independent style of investment management driven by a thematic stock picking approach. The composition of a Fund’s assets is determined largely by the availability of companies regarded as undervalued by Platinum rather than by macro-economic modelling (referred to as top-down asset allocation) or by reference to global share index weightings (referred to as benchmarking).

Platinum’s investment strategy is applied with the aim of achieving absolute returns for Investors over the long-term. This is Platinum’s central endeavour. It is complemented by monthly and quarterly communications to keep Investors abreast of Platinum’s perspective and portfolio positioning.

* Figures are as at 31 July 2025. Funds under management will change from time to time. The latest figure can be obtained from our website or Investor Services.

L1 International

Platinum has appointed L1 International as its investment adviser to provide investment recommendations to Platinum in relation to the Platinum International Fund and the Platinum Global Fund (Long Only), for implementation by Platinum.

L1 International (authorised representative number no. 1273764) is a joint venture between L1 Capital and Perpendo Investment Management Pty Ltd (“**Perpendo**”).

Perpendo was established in 2018 by David Steintal (Chief Investment Officer) and is 100% owned by L1 International’s investment team. Perpendo and L1 Capital Pty Ltd have a consistent investment philosophy and process and a complementary investment style.

L1 International aims to deliver attractive risk-adjusted returns over a long-term investment horizon by investing in high quality companies that it understands well and that have favourable cashflow-based valuations.”

- On page 4, the section titled “Idea generation” is replaced with the following:

“Idea generation

Generation of themes and ideas in Platinum’s investment process is eclectic in nature drawing on a wide range of sources, observations, and market analysis, and benefiting from the cross-pollination of ideas within the team.

The location, organisational structure, range of team meetings and internal infrastructure is designed to foster a collaborative open approach and to facilitate the free flow of information between analysts and Portfolio Managers with different geographic and industry responsibilities. Platinum believes global context is critical.”

-
- On page 5, under the section titled “Investment strategy and typical assets” the third paragraph is replaced with the following:

“The Platinum Asia Fund will not invest in unlisted equity securities, except in the case of initial public offers of securities, or where an unlisted securities holding arises inadvertently, for example due to a corporate event. Any investments in such unlisted securities will be kept to a de minimis amount at all times.”

-
- On page 5, the section titled “Diversification guidelines and limits” the first paragraph is replaced with the following:

“A Fund will typically have a net equity exposure of between 50 – 100% of its Portfolio.”

-
- On page 5, in the heading “Disclosure Principles” is replaced with “Disclosure Principles – applicable for all Funds other than the Platinum International Fund and the Platinum Global Fund (Long Only)”. This heading is also carried through to all pages up until and including page 14.

-
- On page 7, the section titled “Risk management strategy” under “Disclosure Principle 1: Investment strategy” is replaced with the following:

“Risk management is an integral part of good management and corporate governance practice. However, in relation to any investment strategy, an element of risk is inevitable. Platinum views risk primarily as the prospect of losing Investors’ capital. The greatest risk factor is a Portfolio’s security exposure and we monitor and control this risk through the following channels:

- As a result of our investment approach, the key risks in a Portfolio are the specific risks associated with each individual stock position. We view specific stock risk as a function of our knowledge base on the company and seek to manage and reduce risk via a process of in-depth research, scrutiny by the relevant analysts and their peer group as well as ongoing monitoring. Within a Portfolio, care will be taken to avoid excessive exposure to areas that have a high co-variance.
- From time to time, we may utilise derivatives to manage risk, such as:
 - selling index futures or buying index put options to reduce market risk in a Portfolio; and
 - where we have identified stocks that we believe to be overvalued, taking short positions in the stock or buying put options over that stock (see ‘Disclosure Principle 7: Derivatives’ on page 12 for more details).

We may manage risk associated with currency exposure through the use of derivatives contracts (e.g. foreign exchange forwards, swaps, non-deliverable forwards and currency options) and spot foreign exchange trades.

We also have a documented Risk Management Policy and have implemented a risk management framework which is based on the Australian/New Zealand Standard AS/NZS ISO 1000:2018 Risk Management – Principles and Guidelines.”

- On page 8, the section titled “Disclosure Principle 2: Investment manager” is replaced with the following:

“Disclosure Principle 2: Investment manager

Regulatory findings	There have been no significant adverse findings against Platinum.				
	Portfolio Manager	Fund	Qualifications	Investment Management Experience	Years with Platinum
	Cameron Robertson	Platinum Asia Fund	BSc (Hons), CFA, MAppFin	17 years	14 years
	Adrian Cotiga	Platinum European Fund	BCom, MCom	10 years	10 years
	Leon Rapp	Platinum Japan Fund	BArts	15 years	8 years
	Nikola Dvornak	Platinum International Brands Fund	BCom (Hons), MCom (Hons)	18 years	18 years
	Bianca Ogden	Platinum International Health Sciences Fund	MBio, PhD	22 years	22 years
	Jimmy Su	Platinum International Technology Fund	BCom, CFA	10 years	8 years
	Portfolio Managers are investment analysts with stock research responsibilities and retain ultimate responsibility for a Fund's Portfolio construction. The Funds' investment personnel spend as much time as required to accomplish the investment objectives of the Funds.				
	There have been no regulatory findings against any of the Portfolio Managers.”				

- On page 11, the section titled “Maximum anticipated and allowed level of leverage” under “Disclosure Principle 6: Leverage” is replaced with the following:

“Maximum anticipated and allowed level of leverage

The maximum allowable leverage in a Fund is 150% of its NAV, that is, for every \$1 invested, the gross invested position of the Fund taking into account all securities and derivatives (excluding currency derivatives), is limited to \$1.50. For the purposes of this calculation, the notional value of the derivatives is used. Further, this limitation includes all positions and does not allow for netting of any offsetting positions.

Although the maximum allowable leverage in a Fund is 150% of the NAV of a Fund, a Fund's positions in long securities and the notional value of derivatives (excluding currency derivatives) would typically be less than 100% of the Fund's NAV. Derivatives can be used to establish short positions in securities and thus reduce a Fund's net exposure to markets.

The notional value of derivatives (excluding currency derivatives) may not exceed 100% of the NAV of a Fund.

The table below outlines the history of the use of leverage in the Platinum Asia Fund. This example can be applied to all Funds managed by Platinum.

Restrictions on Leverage and Platinum Asia Fund's Experience Over 5 Years to 30 June 2025

Figures are as a percentage of Fund's NAV

	Allowable		Average	Last 5 Years*	
	Maximum	Minimum		Highest	Lowest
Gross (Long + Short)	150%	50% ¹	93%	101%	79%
Long positions	150%	50% ¹	92%	99%	78%
Short positions	50% ¹	0%	2%	9%	0%
Net (Long – Short)	150% ²	50% ¹	90%	99%	72%

1 This restriction is implied only by the Fund's requirement to be “typically at least 50% net invested”.

2 Though maximum is 150%, typically the actual position will be less than 100%.

* Based on month-end positions.”

- On page 13, the section titled “rationale” under “Disclosure Principle 8: Short Selling” is replaced with the following:

“Rationale

The rationale behind short selling is to profit from a fall in the price of a particular security (e.g. share, index, exchange traded fund). From time to time, Platinum applies an active short selling strategy for a Fund and the level of short selling will differ between the Funds. Platinum may use short selling to reduce a Fund’s net invested position and to take opportunities to increase returns.

Platinum generally utilises equity swaps to short sell. A swap is a derivative contract, in which two parties (counterparties) agree to exchange payments of value (or cash flows) for another. Normally, they are cash settled non-deliverable contracts (i.e. settled for a profit or loss).”

-
- Insert a new pages 15A to 15D immediately after page 15, as follows:

“L1 International’s Investment Strategy

How L1 International invests

Platinum has appointed L1 International as its investment adviser to provide investment recommendations to Platinum in relation to the Platinum International Fund and the Platinum Global Fund (Long Only), for implementation by Platinum.

L1 International’s investment style and philosophy

L1 International believes that quality and value are key drivers of long-term total shareholder returns. L1 International will invest in businesses assessed to be high quality, particularly those that demonstrate:

- Durable business models;
- Well structured, growing industries;
- Aligned management with a strong capital allocation track record;
- Growing free cashflow;
- An ability to sustain high returns on invested capital;
- An ability to reinvest capital at attractive incremental returns and/or return excess capital efficiently to shareholders;
- A conservative balance sheet and funding structure; and
- Sustainable policies and practices which address and improve ESG issues (for more information about what L1 International considers to be “ESG” and the extent to which ESG factors are taken into account during the investment process please, refer to section below titled ‘L1 International’s approach to labour, environmental, social and ethical considerations’).

L1 International has developed a detailed investment approach centred around assessing five key criteria:

- Business drivers:** L1 International seeks to identify the critical factors that drive the economic performance of the business, assess the degree to which they are measurable and predictable, and determine how these drivers are expected to trend over the investment horizon.
- Industry structure:** L1 International assesses the industry growth profile, barriers to entry, the competition, substitution alternatives and the cost of production versus peers, the degree of consolidation and competitive intensity, potential technology disruption and the regulatory environment. L1 International tends to prefer a rational duopoly where there are two very strong competitors over an industry with a tail of weaker competitors.
- Business economics and financial strength:** L1 International seeks businesses which have robust business economics, particularly those that demonstrate pricing power, high operating margins, predictable financial performance, high cash conversion and high returns on invested capital and increment invested capital. L1 International assesses the financial strength of the business, including the financial risk to equity investors from absolute debt levels, operating leverage and debt structures, which are for L1 International, critical considerations to both portfolio inclusion and the size of the investment.
- Management capital allocation and incentives:** L1 International assesses a wide range of factors including management’s track record of allocating capital, how they are expected to allocate capital in the future, the structure and quantum of compensation as well as the level of alignment through management shareholdings.
- ESG considerations:** L1 International integrates ESG considerations and decision-making alongside qualitative and financial considerations, requiring businesses to have ESG policies and practices which address ESG issues over the medium to long term. For more information about what L1 International considers to be ESG and the extent to which ESG factors are taken into account during the investment process please, refer to section titled ‘Labour, environmental, social and ethical considerations’).

L1 International’s investment universe is further refined through detailed quantitative assessment of economic cashflow, earnings and returns on capital invested in the business to assess valuation compared to the security price.

L1 International's investment approach

L1 International uses a fundamental, bottom-up, independent research process to identify investments and assess their potential to provide attractive risk-adjusted returns and lower risk of a permanent loss of capital value over the investment horizon.

While this process is iterative and involves many stages of analysis which can occur concurrently, below is an outline of the steps from company-specific research to the formation and maintenance of a portfolio.

1. Idea Generation
2. Qualitative Assessment Rating
3. Detailed Bottom-up Analysis including Risk Assessment
4. Financial Modelling
5. Valuation
6. Portfolio Construction

L1 International's approach to labour, environmental, social and ethical considerations

L1 International takes into account internally developed environmental, social and ethical considerations and labour standards (together, "**ESG Factors**") in its investment analysis and decision-making process in respect of the Platinum International Fund and the Platinum Global Fund (Long Only). L1 International does not target specific outcomes with regards to ESG Factors.

ESG Factors

Using the methodology set out below, L1 International's investment research process analyses a set of internally developed ESG Factors comprising (1) environment, (2) management, (3) governance, (4) safety, (5) taxation, and (6) public policies and community support. The six ESG Factors include:

1. Environment – Elements such as the degree to which the company's primary industry or industries raise environmental considerations, the degree to which environmental issues are being mitigated through proactive actions and leading industry action/change, and the company's environmental reporting, litigation and reserves;
2. Management – Non-financial management factors such as experience, diversity, transparency and employee morale;
3. Governance – Factors include whether the Chairman and CEO roles are separated, overall independence of the Board, Board diversity, controlling shareholders, Board renewal, restrictions on voting for Directors, management succession planning and jurisdictional issues;
4. Safety – Programs to ensure a safe and healthy workplace (including labour/social relations and working conditions), safety performance and reporting, including past results and track record;
5. Taxation – Accounting and cash taxes and potential for aggressive tax minimisation practices; and
6. Public policies and community support – includes public policies to support internal and external ESG objectives, including environmental, diversity and social/community support programs.

Ethical considerations are considerations of beliefs, behaviour or actions of a company in terms of whether they are regarded by L1 International as morally right or wrong. For example, L1 International will consider the values, principles, standards and codes of conduct of a company that it proposes to invest in as published by that company. L1 International's assessment includes an assessment of any records of misconduct by an organisation or its executives and the process of an organisation to prevent, mitigate or address any such misconduct. Ethical considerations are embedded in the consideration of each of the ESG Factors. This is because ethical considerations can arise in the context of each of the six ESG Factors and as a result are assessed on a case by case basis. By way of example, some of the ethical considerations which may be taken into account for each ESG Factor respectively are listed below:

1. whether the actions of a company have caused, or have the potential to cause, harm to the environment;
2. whether the company has policies and practices in place to prevent, mitigate or otherwise report unethical behaviour;
3. the company's approach to whistle-blowing and non-retaliation;
4. the company's compliance with modern slavery requirements;
5. whether the company engages in aggressive tax minimisation practices; and
6. the relationship of the company with local and/or indigenous communities.

L1 International uses its discretion to assess each individual company under consideration on a case by case basis against each ESG Factor, taking into account the context of that company's activities, industry and geography. It does not apply externally developed standards and does not have a uniform, predetermined view about what it regards to be labour standards or environmental, social or ethical considerations across all companies indiscriminately.

L1 International's ESG and responsible investment policy can be found at www.L1.com.au/esg-responsible-investment-policy/.

Methodology

L1 International takes into consideration ESG Factors to the extent they impact on 'Quality', 'Value' and 'Portfolio Monitoring' using the methodology set out below. Its proprietary investment research process is based on its philosophy that 'Quality' and 'Value' each drive a company's long-term shareholder returns, and that both fundamental (economic and accounting) factors and ESG Factors impact each driver. It analyses each individual company on the company's own merits, but also considers it in the context of the industry in which the company operates.

- 1. Quality:** L1 International uses its discretion to assess the quality of each company using a consistent, internally developed Quality Assessment Framework covering five areas as ('Areas'): (1) business drivers, (2) industry structure, (3) business economics and financial strength, (4) management and (5) ESG Policies and Practices (which considers all six ESG Factors explained above, summarising them in an 'ESG Rating' explained below). L1 International synthesises its opinion with respect to each company's overall quality in a numerical Quality Rating using a scale of 1 to 6, with 1 being 'excellent', 2 'very good', 3 'good', 4 'average', 5 'below average' and 6 'poor'.

The ESG Rating, which distils L1 International's opinion on whether each business has ESG policies and practices that address ESG issues and the extent to which those policies and practices are implemented over the medium to long term, forms part of the calculation of the Quality Rating, but also receives its own 1 to 6 scale rating. An ESG Rating of 1 'excellent' indicates L1 International's view that the company is industry leading or best practice (as specific to the industry in which the company operates), 2 'very good' reflects better than average in most respects, 3 'good' reflects better than average in some respects, 4 'average' reflects it is in line the average company in the industry, and 5 'below average' and 6 'poor' indicate the company is lagging industry peers.

To determine the Ratings, L1 International reviews all Areas and all ESG Factors, deciding which ones are relevant and material for each company and uses its discretion based on the research it has conducted, rather than applying a predetermined weighting system or referencing external standards. A company must achieve both a minimum ESG Rating of 4 and an overall Quality Rating of 1, 2 or 3, to be eligible for investment.

- 2. Value:** When assessing company 'Value', L1 International takes a fundamental, bottom-up approach to valuation in order to identify securities with the potential to provide attractive risk-adjusted returns.

Key factors L1 International considers in the valuation of each company, include both financial and sustainability considerations:

1. Sustainable revenue growth
2. Operating margin trends
3. Conversion of earnings into cashflow
4. Operating leverage
5. Financial leverage and funding structures
6. Capital requirements
7. Growth capital opportunities, both organic and inorganic
8. Historical returns on invested capital and equity
9. Incremental returns on invested capital and equity
10. Policies and practises to return excess capital efficiently to shareholders
11. Financial implications of sustainable policies and practices which address and improve ESG issues.

L1 International applies this valuation methodology in a flexible and tailored way to suit each company and industry it evaluates. In line with this, L1 International gauges ESG's impact on valuation on a materiality basis. L1 International believes that all 'ESG initiatives' are not created equal. For example, companies may launch high profile ESG initiatives that, when examined, go no deeper than ticking boxes for the annual report, the company website or public statements, while others prove to be robust and genuinely target meaningful, positive ESG outcomes. Some initiatives may be put in place quietly and without promotion, such as new or improved products and services that meaningfully reduce energy and other material usage, which will have a meaningful ESG impact but are not labelled as such, whilst others may carry additional capital expenditure requirements that are material to the company.

- 3. Portfolio monitoring:** On a minimum of a monthly basis, L1 International uses its discretion to map the concentration of the overall portfolio exposures to a broad set of key drivers relevant to the portfolio. Aggregate exposure to the ESG Factors set out above are explicitly included as one of these drivers when monitoring portfolios. Monitoring and review of individual companies against the ESG Factors are described in further detail below.

Monitoring and review

L1 International monitors each individual company in which it invests case by case on an ongoing (but at a minimum, monthly) basis across the areas of Quality and Value described above, including the ESG Factors. L1 International examines whether any events or occurrences, such as a change in the company's management, business direction or ESG policy or practice (including but not limited to a company's compliance with its ESG policy), warrants an adjustment in its original Quality Rating, ESG Rating or fair valuation. If a company's Ratings change such that it no longer meets the minimum Quality or ESG Ratings set out above, it is no longer investable. The steps to remove that company from the portfolio and the timeframe within which it occurs is determined

on a case by case basis. L1 International does not have a predetermined, universal set of standards or considerations for recording how adherence to the methodology set out above is monitored or reviewed.

Significant benefits of L1 International's investment strategy (relevant for an investment in the Platinum International Fund and the Platinum Global Fund (Long Only))

Significant benefits and features of investing in the Platinum International Fund and the Platinum Global Fund (Long Only) include:

- Access to an experienced investment team that implements a disciplined investment process aimed at delivering attractive risk-adjusted returns over a long-term investment horizon by investing in high quality companies;
- Access to investment opportunities in offshore markets;
- Prudent risk management; and
- Participation in any capital appreciation and income distributions of the Funds.

Risks of investing in the Platinum International Fund and the Platinum Global Fund (Long Only))

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. The significant risks below should be considered in light of your risk profile when deciding whether to invest in the Platinum International Fund and/or the Platinum Global Fund (Long Only)). Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets and your risk tolerance.

Neither Platinum nor L1 International guarantees the liquidity of the investments in the Platinum International Fund or the Platinum Global Fund (Long Only), repayment of capital or any rate of return or the investment performance of the Platinum International Fund and the Platinum Global Fund (Long Only). The value of the investments in the Platinum International Fund and the Platinum Global Fund (Long Only) will vary. Returns are not guaranteed and you may lose money by investing in the Platinum International Fund and the Platinum Global Fund (Long Only). The level of returns will vary and future returns may differ from past returns. Laws affecting managed investment schemes may change in the future. The structure and administration of the Platinum International Fund and the Platinum Global Fund (Long Only)) is also subject to change.

Equity funds risk

The value of the equity securities the Platinum International Fund and the Platinum Global Fund (Long Only)) hold, directly or indirectly, may decrease in response to the risks to which a particular company is itself exposed to such as changes in management, actions of competitors and regulators, changes in technology and market trends. A company's value may also decrease in response to general market, business and economic conditions which may cause the Unit price of the Platinum International Fund and/or the Platinum Global Fund (Long Only) to decrease.

Market risk

Markets are subject to a host of factors, including economic conditions, government regulations, market sentiment, local and international political events and environmental and technological issues. Market risk may have different impacts on each investment and investment style.

Any investment made in a specific group of assets is exposed to the universal risks of that asset market. However, there can be no guarantee that losses equivalent to or greater than the overall market will not be incurred as a result of investing in such assets.

International investments risk

The Platinum International Fund and the Platinum Global Fund (Long Only) will each invest in investments that have exposure to a range of international economies, currencies and tax regimes. Global and country specific macroeconomic factors may impact the international exposure of the Platinum International Fund and/or the Platinum Global Fund (Long Only).

Governments may intervene in markets, industries, and companies and may alter tax and legal regimes and may act to prevent or limit the repatriation of foreign capital. Such interventions may impact the return of the Platinum International Fund and/or the Platinum Global Fund (Long Only).

Limited diversification risk

L1 International intends to diversify the investments of the Platinum International Fund and the Platinum Global Fund (Long Only) as it deems appropriate and consistent with each Fund's investment objective. If the investment portfolio of the Platinum International Fund and the Platinum Global Fund (Long Only)) are concentrated in a small number of investments, the portfolios will be subject to a greater level of volatility.

Operational risk

Operational risk includes those risks which arise from carrying on a funds management business. The operation of the Platinum International Fund and the Platinum Global Fund (Long Only)) requires Platinum, L1 International, the Custodian, and other service providers to implement sophisticated systems and procedures. Some of these systems and procedures are specific to the operation of the Funds. Inadequacies with these systems and procedures or the people operating them could lead to a problem with the operation of the Platinum International Fund and/or the Platinum Global Fund (Long Only) and result in a decrease in the value of their Units.

Fund risk

Fund risk refers to specific risks associated with the Platinum International Fund and the Platinum Global Fund (Long Only), such as termination and changes to fees and expenses. An investment in these Funds is governed by the terms of each Fund's Constitution and this PDS, each as amended from time to time. Platinum may elect, in accordance with the relevant Constitution and the Corporations Act, to terminate the Platinum International Fund and/or the Platinum Global Fund (Long Only).

Investment strategy risk

Investment in the Platinum International Fund and the Platinum Global Fund (Long Only) carries the risks that L1 International's strategies might not be successful. There is no guarantee that the investment strategy of the Platinum International Fund or the Platinum Global Fund (Long Only) will meet their relevant objectives.

Regulatory risk

Changes to laws and regulations governing financial markets and instruments could have adverse implications for your investment in the Platinum International Fund and/or the Platinum Global Fund (Long Only) Fund.

Key person risk

The performance of the Platinum International Fund and the Platinum Global Fund (Long Only) is dependent on the expertise and decisions of Platinum and L1 International. As such, there is a risk that changes in key personnel of Platinum and/or L1 International may negatively impact the performance of the Platinum International Fund and/or the Platinum Global Fund (Long Only).

Pandemic and other unforeseen event risk

Health crises, such as pandemic and epidemic diseases, as well as other catastrophes that interrupt the expected course of events, such as natural disasters, war or civil disturbance, acts of terrorism, power outages and other unforeseeable and external events, and the public response to or fear of such diseases or events, have and may in the future have an adverse effect on the economies and financial markets either in specific countries or worldwide and consequently on the value of the investments of the Platinum International Fund and/or the Platinum Global Fund (Long Only). Further, under such circumstances the operations, including functions such as trading and valuation, of Platinum and other service providers could be reduced, delayed, suspended or otherwise disrupted.

Counterparty risk

Counterparty risk is the risk of loss caused by another party defaulting on its obligations either because they become insolvent or cannot otherwise meet their obligations to the Platinum International Fund and/or the Platinum Global Fund (Long Only). A party defaulting on its obligations could subject these Funds to substantial losses because these Funds will still be required to fulfil their obligations on any transactions which were to have been substantially offset by other contracts.

Currency risk

Investments in securities which are denominated in foreign currencies give rise to foreign currency exposure. This means that the value of these investments will vary depending on changes in currency exchange rates. It is not L1 International's intention to hedge the foreign currency exposure of the Fund arising from investments in offshore markets. However, L1 International may use derivative contracts to hedge significant currency exposure if it is considered in the best interests of the Fund's investors.

Pooled fund risk

The market prices at which the Platinum International Fund and/or the Platinum Global Fund (Long Only) are able to invest inflows, or sell assets to fulfil outflows, may differ from the prices used to calculate the NAV per Unit of the relevant Fund. Investors may therefore be impacted by other investors entering and exiting the relevant Fund. The impact will depend on the size of inflows or outflows relative to the relevant Fund, and on the price volatility of the securities in which the relevant Fund invests. Inflows and outflows may also affect the taxable income distributed to an investor during a financial year.

Interest rate risk

Changes in interest rates can have a direct or indirect impact on the investment value and/or returns of many types of assets. Interest rates may directly or indirectly affect a company's cost of borrowings as well as the value of fixed interest securities.

Liquidity risk

This is the risk that an investment may not be easily converted into cash with little or no loss of capital and minimum delay.

Under certain conditions, liquidity of a particular market or security may be restricted, thus affecting the performance of the Platinum International Fund and/or the Platinum Global Fund (Long Only). Lack of liquidity or market depth can affect the valuation of these Funds' assets as they look to realise securities at quoted prices. For example, securities of small companies may, from time to time, have limited liquidity. This means that, as a consequence of restrictions on disposal of the underlying investments, these Funds may be limited in their ability to meet withdrawal requests. Platinum does not guarantee that you will be able to redeem your Units and may not redeem Units where it deems it necessary and it is in the best interests of its investors.

Valuation risk

Where there is no liquid market for investments in the Platinum International Fund and/or the Platinum Global Fund (Long Only), those investments may be valued by reference to market prices for other comparable assets and observable market data. These prices may not reflect the value at which the investments can be realised, which may be lower.

Derivatives risk

The Fund may use exchange traded derivatives and over-the-counter derivatives which may be volatile and speculative. Use of derivative instruments involves various risks such as tracking, liquidity and leverage.

Cyber security risk

There is a risk of financial or data loss to the Platinum International Fund or the Platinum Global Fund (Long Only) as a result of an unauthorised breach of the information technology systems and networks of L1 International, Platinum, Administrator/Custodian or other service provider that may store sensitive information."

- On page 17, the sections titled "Platinum International Fund" and "Platinum Global Fund (Long Only)" are replaced with the following:

"Platinum International Fund**Investment objective**

The Fund aims to outperform the MSCI World Net Total Return Index in AUD net of fees and expenses over rolling 5 year periods.

The Fund's investments

The Fund primarily invests in listed equity securities. The Fund's investment guidelines are:

- Global equities: 75-100%;
- Cash levels: 0-25%;
- Gearing: None (other than for short-term settlement purposes);
- Shorting: None
- Typical number of positions: 20-40

Allowable Investments

The Fund may invest in a variety of assets, including the following:

- securities quoted on an international securities exchange or the ASX;
- exchange traded derivatives to hedge fund inflows and outflows;
- convertible notes or preference shares listed on a recognised international exchange; and
- OTC derivatives such as equity swaps and foreign exchange contracts to hedge significant currency exposure.

This Supplementary Product Disclosure Statement ("**SPDS**") relates to the Platinum Trust[®] Product Disclosure Statement dated 1 October 2024 ("**PDS**") offering C, P and E Unit Classes of the Platinum Trust Funds.

The purpose of this SPDS is to inform existing and prospective investors of updates to the:

- 'Disclosure Principle 2: Investment manager' section; and
- The 'Investment objective' and 'The Fund's investments' sections for the Platinum International Brands Fund of the PDS.

This SPDS is an important document and must be read together with the PDS. The information set out below is taken to be included in the PDS. Terms defined in the PDS have the same meaning in this SPDS. If there is a conflict between the PDS and this SPDS, this SPDS will prevail.

This SPDS will be made available on www.platinum.com.au/media/platinum/Default/pt_pds.pdf.
For additional information please contact Platinum's Investor Services.

Accordingly, the following amendments are made to the PDS to take effect from 3 March 2025:

- 'Disclosure Principle 2: Investment manager' on page 8 will be deleted and replaced with the text below to reflect the recent changes in the responsibilities of the Portfolio Managers of the Funds.

"Disclosure Principle 2: Investment manager"

Regulatory findings	There have been no significant adverse findings against Platinum.				
	Portfolio Manager	Fund	Qualifications	Investment Management Experience	Years with Platinum
	Ted Alexander	Platinum International Fund Platinum Global Fund (Long Only)	BEco (Hons), MEco	17 years	0 years

	Portfolio Managers are investment analysts with stock research responsibilities and retain ultimate responsibility for a Fund’s Portfolio construction. The Funds’ investment personnel spend as much time as required to accomplish the investment objectives of the Funds.				
There have been no regulatory findings against any of the Portfolio Managers.”					

- The "Investment objective" and "The Fund's investments" sections for the Platinum International Brands Fund on page 19 of the PDS are amended by inserting the text that is underlined and deleting the text that is shown as deleted, as shown below:

"Investment objective"

The Fund aims to provide capital growth over the long-term by investing in well-recognised as well as up-and-coming, consumer and business brand names (including but not limited to producers of household consumables and durables, luxury goods, retailers, and consumer services in areas such as finance, travel, leisure, and digital media).

We believe that successful brand management involves establishing an association in the minds of ~~consumers~~ customers with the positive tangible and intangible traits of the product or service. Tangible aspects may include high quality products, low-priced merchandise, or high convenience or most useful service; and intangible features such as luxuriousness, dependability, or perceived safety. The successful maintenance of this association causes ~~consumers~~ customers to purchase the product or use the service in preference to alternative options, and can allow the brand-owner to earn an economic rent above its cost of capital while generating above-average growth. We utilise this brand framework to identify attractive investment opportunities in consumer and business brand companies. Our investment case may be driven by aspects such as our view on future growth, the potential of recovery from a period of mismanagement, or the possibility of recognition of latent brand value by a strategic partner.

The Fund's investments

The Fund primarily invests in listed equity securities. The Fund invests in a diverse range of branded ~~consumer~~ companies from well-recognised multinationals with iconic globally recognised consumer and business brands, through to companies with local or regional brands that have little or no recognition outside of their home market. Accordingly, the Fund can have investments in companies listed on exchanges across a wide variety of countries including those considered to be emerging or developing markets which, in aggregate, could be a significant proportion of the Fund.

The Portfolio will ideally consist of 30 to 80 securities that Platinum believes to be undervalued by the market. Cash may be held when undervalued securities cannot be found. Platinum may short sell securities that it considers overvalued and may also use derivatives. Refer further to 'Disclosure Principle 8: Short selling' on page 13 and 'Disclosure Principle 7: Derivatives' on page 12.

The Portfolio will typically have 50% or more net equity exposure.

The Portfolio is constructed in accordance with Platinum's 'Investment Strategy' – refer to page 4."

Important Notice to Investors

Platinum Investment Management Limited ABN 25 063 565 006 AFSL 221935, trading as Platinum Asset Management ("**Platinum**"), is the responsible entity ("**Responsible Entity**") and the investment manager for the Platinum Trust Funds ("**Funds**") offered under this Product Disclosure Statement dated 1 October 2024 ("**PDS**").

This PDS provides a summary of the key information you need in order to make a decision to invest in any of the Funds. You should not invest in a Fund unless you have read this PDS in its entirety. We also recommend that you read the Fund's most recent quarterly investment report and target market determination (available from Platinum's website or Investor Services).

The information in this PDS is general information only and does not take into account your investment objectives, financial situation or particular needs. You should consult a licensed financial adviser to obtain financial advice that's tailored to suit your personal circumstances.

Neither we nor any of our associates guarantees or makes any representations as to the performance of the Funds, the maintenance or repayment of capital or any particular rate of return.

All amounts in this PDS are given in, and historical returns are based upon, Australian dollars (unless otherwise specified). All figures are sourced from Platinum unless otherwise expressly stated. Capitalised terms have the meanings as set forth in the Glossary (refer to page 49). References to "we", "us", "our", "Platinum" and "Platinum Asset Management" are to Platinum Investment Management Limited as the Responsible Entity of the Funds. References to "Investor", "you" or "your" are to Investors in a Fund i.e. the applicant named in an Application Form.

This PDS does not constitute an offer or invitation in any place in which, or to any person to whom, it would not be lawful to make such an offer or invitation. No action has been taken to register or qualify the Funds in any jurisdiction outside Australia and New Zealand. The distribution of this PDS outside Australia and New Zealand may be restricted by law and persons who come into possession of this PDS outside Australia and New Zealand should seek advice on and observe any such restrictions. Any failure to comply with such restrictions may constitute a violation of applicable securities laws.

A copy of this PDS has been lodged with ASIC. However, ASIC takes no responsibility for the content of this PDS.

Platinum Asset Management

Platinum is an Australian-based investment manager specialising in international equities.

Platinum is the Responsible Entity and investment manager of the Funds.

Platinum manages approximately A\$12 billion, with around 6% of funds from Investors in New Zealand, Europe, America, Asia and the rest from Australian Investors*.

Platinum is a fully owned subsidiary of Platinum Asset Management Limited ABN 13 050 064 287, a company listed on the Australian Securities Exchange.

* Figures are as at 31 August 2024. Funds under management will change from time to time. The latest figure can be obtained from our website or Investor Services.

Why invest with Platinum?

Platinum has an independent style of investment management driven by a thematic stock picking approach. The composition of a Fund's assets is determined largely by the availability of companies regarded as undervalued by Platinum rather than by macro economic modelling (referred to as top down asset allocation) or by reference to global share index weightings (referred to as benchmarking).

Platinum's investment strategy is applied with the aim of achieving absolute returns for Investors over the long-term. This is our central endeavour. It is complemented by monthly and quarterly communications to keep Investors abreast of our perspective and portfolio positioning.

Platinum's Investment Strategy

How Platinum invests

Investment philosophy

Platinum is an active manager seeking to deliver absolute returns over the long-term.

Platinum's investment philosophy is centred around the idea that stock prices are heavily influenced by our cognitive biases and that, from time to time, this can lead to mispricing, particularly where there is temporary uncertainty or long-term change.

Platinum believes these opportunities are more likely found away from the spotlight and that the best decisions will often be uncomfortable, while noting that the price paid for an investment is a key driver of its return.

Investment approach and process

Platinum's portfolios are built via a process of individual stock selection ("bottom-up") – this is neither by macro-economic modelling ("top-down") nor by reference to any index weightings ("benchmarking").

Platinum applies qualitative and quantitative analyses when selecting stocks. Considerations for each company typically include, but are not limited to:

- whether the company's business is competitive and sustainable;
- the quality of the company's management;
- the company's ownership structure;
- whether the company is financially sound; and
- the company's valuation metrics.

Such analyses are augmented by observations and studies of broader socio-political and macroeconomic themes and trends.

Platinum's investment process generally involves the following key elements:

Idea generation

The Portfolio Managers for the Platinum International Fund and the Platinum Global Fund (Long Only) are supported by a dedicated sector-based research team. The other Funds have their own focused research resources.

Generation of themes and ideas in Platinum's investment process draws on a wide range of sources, observations, and market analysis, and benefits from the cross-pollination of ideas.

The location, organisational structure, range of team meetings and internal infrastructure is designed to foster a collaborative open approach and to facilitate the free flow of information between analysts and Portfolio Managers with different geographic and industry responsibilities. Platinum believes global context is critical.

Quantitative analysis

Platinum uses a range of financial screens to drive short-lists of companies for more intense analysis. This is helpful in uncovering companies that are not part of the popular narratives of the day. The quantitative analysts run a portfolio of best ideas which demonstrates their conviction to the broader team.

Intensive research

Having identified a company as a potential investment, it is explored in greater depth, utilising a wide range of resources, which may include material from the company and its competitors, consultation with experts, reports from stockbroking analysts and industry material, and potentially visiting the company, its competitors and its suppliers.

The investment case should highlight why any mispricing exists and what the company is expected to achieve over the intended investment time horizon. Platinum seeks to draw on the broad experience of the investment team to drive debate, reduce the risk of bias and ultimately lead to better investment outcomes.

Each Portfolio Manager is ultimately responsible for their investment decisions.

Portfolio construction

As a consequence of the investment approach, each Fund's Portfolio will be built-up from a series of individual stock selections rather than either a pre-determined asset allocation or with reference to any benchmark index.

At any point in time there will be newly introduced ideas, some that have made an initial contribution and others that are getting closer to maturity. In arriving at portfolio weightings, attention is paid to the relationship between stocks, sectors and geographies.

When undervalued securities cannot be found, Platinum may leave funds in cash. Therefore, after periods when the markets have performed strongly a Fund may hold a significant cash position.

Likewise, when Platinum's research reveals companies whose prospects are seen as overvalued, Platinum may short sell positions in securities (and indices) – refer to 'Derivatives' and 'Short selling' on pages 12 and 13. Note, however, that short selling is not undertaken for the Platinum Global Fund (Long Only) – refer to page 17.

Disclosure Principles

Disclosure Principle 1: Investment strategy

Investment strategy and typical assets	Platinum seeks investments in companies whose businesses and growth prospects are being inappropriately valued by the market. For more information on Platinum's 'Investment Strategy' – refer to page 4. Each Fund's Constitution permits a wide range of investments. However, Platinum typically invests in listed equity securities of companies, cash and cash equivalents, derivatives (including OTC derivatives) and foreign exchange transactions. Please refer to page 21 for more information. The Platinum International Fund and the Platinum Asia Fund will not invest in unlisted equity securities, except in the case of initial public offers of securities, or where an unlisted securities holding arises inadvertently, for example due to a corporate event. Any investments in such unlisted securities will be kept to a <i>de minimis</i> amount at all times. The use of leverage, derivatives and short selling by each Fund is outlined in more detail on pages 11 to 13.
Investment returns	In Platinum's opinion, investing in a broad range of companies whose businesses and growth prospects are being inappropriately valued by the market provides a foundation for long-term investment returns. For more information on Platinum's 'Investment Strategy' – refer to page 4.
Investment return assumptions	Investing in the shares of a company is a claim on the underlying profits of a company's business. In simple terms, investment returns are determined by, amongst other things: initial valuation, subsequent performance of the business, and valuation of the company at the end of the period. The assessment of a company's future prospects is a very significant and challenging part of the day-to-day process of investing. Not only do general economic conditions play a part, but issues such as the behaviour of competitors, technological change, government regulation and management decisions all have a bearing on the future outcomes for a company. Also understanding the future valuation that a company will attract is no simple task as often this can change quite dramatically with changes in growth rates of earnings.
Diversification guidelines and limits	A Fund will typically have a net equity exposure of between 50 – 100% of its Portfolio value, except for the Platinum Global Fund (Long Only) which will typically have a net equity exposure of between 75 – 100% of its Portfolio value. In general, a Fund will seldom invest more than 5% of the Fund's NAV in the securities of a single issuer at the time of investment.
Risks of strategy	You could lose money by investing in a Fund and the Fund could underperform other investments. Performance may differ significantly from industry benchmarks such as indices issued by MSCI Limited. You should expect a Fund's unit price and total return to fluctuate within a wide range. Each Fund's performance could be affected by: Manager risk: A Fund's performance depends on the expertise and investment decisions of Platinum. Platinum's opinion about the intrinsic worth of a company or security may be incorrect, a Fund's investment objective may not be achieved and the market may continue to undervalue the securities held by a Fund. Market risk: Security prices may decline over short or extended periods due to general market conditions, including but not limited to, inflation, foreign currency fluctuations and interest rates. Portfolio asset risk: Investments in equity and equity related securities generally have greater price volatility risk than debt securities. The value of securities held in a Fund may decline because of the quality of a company's management, financial condition, operations and the general health of the sector in which the company operates. Share markets can experience exceptionally high levels of volatility affecting the value of the securities traded in those markets.

Risks of strategy – continued

Derivative risk: Investments in derivatives may cause losses associated with changes in market conditions, such as fluctuations in interest rates, equity prices or exchange rates and, changes in the value of a derivative may not correlate perfectly with the underlying asset. Derivative transactions may be highly volatile and can create investment leverage, which could cause a Fund to lose more than the amount of assets initially contributed to the transaction. As Over-the-Counter (“**OTC**”) derivatives are customised instruments, a Fund may be unable to liquidate the derivative contract at a fair market price within a reasonable timeframe. The OTC counterparty may be unable or unwilling to make the required delivery of the security or make the required payments.

Short selling risk: Short selling can be seen as a form of leverage and may magnify the gains and losses achieved in a Portfolio. While short selling may be used to manage certain risk exposure in a Portfolio, it may also have a significantly increased adverse impact on its return. Losses resulting from a short position may exceed the amount initially invested.

Currency risk: Investing in assets denominated in a currency other than a Fund’s base or reporting currency may cause losses resulting from exchange rate fluctuations. Platinum may choose not to hedge or any hedging strategies employed may not be successful.

Foreign issuer risk: Investments in foreign companies may decline in value because of sovereign, political, economic or market instability; the absence of accurate information about the companies; and/or risks of unfavourable government actions such as expropriation and nationalisation. Such securities may be less liquid, more volatile, and harder to value. In times of market disruptions (including but not limited to market closures), security prices may be delayed or unavailable. Some countries may have different legal systems, taxation regimes, auditing and accounting standards with less governmental regulation and transparency. These risks may be higher when investing in emerging markets.

Liquidity risk: A Fund may not be able to purchase or sell a security in a timely manner or at a desired price or achieve its desired weighting in a security.

Counterparty risk: This is the risk of loss resulting from a counterparty not meeting its obligations due to a dispute over terms, or the insolvency, financial distress or bankruptcy of a counterparty used by Platinum.

Global pandemic risk: Health pandemics could significantly affect the industries that a Fund invests in, as well as the normal operations of financial markets and the operation of Platinum, its service providers and counterparties.

Operational risks: The following risks may adversely affect a Fund and its performance: a Fund could terminate, its features could change, Platinum may not be able to continue to act as Responsible Entity; third party service providers engaged by Platinum for the Funds may not properly perform their obligations and duties; or circumstances beyond the reasonable control of Platinum may occur, such as failure of technology or infrastructure, cyber attacks or natural disasters.

General regulatory and tax risk: This is the risk that a government or regulator may introduce regulatory and/or tax changes, or a court makes a decision regarding the interpretation of the law, which affects the value of a Fund’s assets or the tax treatment of a Fund and its Investors. These changes are monitored by Platinum and action is taken, where appropriate, to facilitate the achievement of the investment objectives of each Fund. However, Platinum may not always be in a position to take such action.

Performance fee risk: Where performance fees are charged, Platinum may have an incentive to take higher investment risks in a Portfolio.

Cyber security risk: This risk relates to the potential for unauthorised access, data breaches, or disruptions in the Fund’s systems, which could result in financial losses or compromised Investor information, as seen in cases of hacking or malware attacks on financial institutions.

Disclosure Principles **continued**

Risks of strategy – continued

Platinum International Health Sciences Fund: The Fund will invest in companies engaged in early stage research and the development of new drugs or treatments. The clinical trial process for such developments has a long gestation period, taking from a few years to many decades to complete. These companies face significant scientific, regulatory and, at times, legal risks with these programs where it is impossible to be certain of a successful outcome. Many of these programs fail, which can impact the volatility and returns of the investment and the Fund. The global health care industry is subject to regulatory and political influences that can also be unpredictable and economically adverse. The construction of the Portfolio can ameliorate only some of the risks associated with investing in companies engaged in the complexities of research and development that span many years. Investors should anticipate periods of significant fluctuations and recognise that some of the investments made by the Fund might take many years to realise their potential (if at all).

Platinum has a duty to act in the best interests of the Investors of the Funds. Portfolio Managers and associated investment staff are required to comply with Platinum's conflict management policies and to operate within Platinum's compliance and risk management frameworks.

Please consult with a licensed financial adviser to determine your own risk/reward profile.

Risk management strategy

Risk management is an integral part of good management and corporate governance practice. However, in relation to any investment strategy, an element of risk is inevitable.

Platinum views risk primarily as the prospect of losing Investors' capital. The greatest risk factor is a Portfolio's security exposure and we monitor and control this risk through the following channels:

- As a result of our investment approach, the key risks in a Portfolio are the specific risks associated with each individual stock position. We view specific stock risk as a function of our knowledge base on the company and seek to manage and reduce risk via a process of in-depth research, scrutiny by the relevant analysts and their peer group as well as ongoing monitoring. Within a Portfolio, care will be taken to avoid excessive exposure to areas that have a high co-variance.
- From time to time, we may utilise derivatives to manage risk, such as:
 - selling index futures or buying index put options to reduce market risk in a Portfolio; and
 - where we have identified stocks that we believe to be overvalued, taking short positions in the stock or buying put options over that stock (see 'Disclosure Principle 7: Derivatives' on page 12 for more details). For the Platinum Global Fund (Long Only), there is no short selling of indices or stocks.

We may manage risk associated with currency exposure through the use of derivatives contracts (e.g. foreign exchange forwards, swaps, non-deliverable forwards and currency options) and spot foreign exchange trades.

We also have a documented Risk Management Policy and have implemented a risk management framework which is based on the Australian/New Zealand Standard AS/NZS ISO 1000:2018 Risk Management – Principles and Guidelines.

Investment strategy changes

Investors will be notified of any such changes in accordance with our obligations under the Corporations Act.

Portfolio Managers are investment analysts with stock research responsibilities and retain ultimate responsibility for a Fund's Portfolio construction. The Funds' investment personnel spend as much time as required to seek to accomplish the investment objectives of the Funds.

There have been no regulatory findings against any of the Portfolio Managers.

Disclosure Principles *continued*

Disclosure Principle 3: Fund structure

Investment structure

Each Fund is a managed investment scheme registered with the Australian Securities and Investments Commission ("**ASIC**").

Platinum is ultimately owned by Platinum Asset Management Limited (ABN 13 050 064 287), a company listed on the ASX (ASX ticker PTM).

Flow of investment money:

Service providers:

Key service providers

Custodian – Platinum has appointed The Northern Trust Company ("**Northern Trust**") to act as global custodian for the Funds.

Middle office – Platinum has appointed Northern Trust as its outsourced middle office services provider to provide middle office support, including trade life-cycle management, collateral management and OTC derivatives regulatory reporting services.

Auditor – PwC is the registered auditor for the Funds. The auditor's role is to audit the Funds' compliance plan and annual financial report (which includes the financial statements), perform a half-yearly review (if required), and to provide an opinion on the financial statements.

Valuation of Fund assets – Platinum has appointed Northern Trust to value the assets of each Fund and calculate daily unit prices.

Monitoring service providers

Platinum has in place procedures to periodically monitor key service providers to provide reasonable assurance that:

1. services rendered are in accordance with written agreements and service level standards; and
2. there is integrity in the data and information provided by service providers to Platinum.

Related party

Platinum may, in its personal capacity, invest in one or more Funds it manages.

Directors and employees of Platinum may invest in Funds managed by Platinum.

Material arrangement

There are no material arrangements in connection with any Fund that are not on arm's length terms.

Jurisdictions of entities in Funds' structure

All entities involved in each Fund's structure are based in Australia, Platinum and Northern Trust are subject to the jurisdiction of ASIC and AUSTRAC. Northern Trust is also regulated by the Australian Prudential Regulation Authority.

Risks of holding assets overseas

Generally, Fund securities are held in custody by Northern Trust and sub-custodians engaged by Northern Trust, located globally. Certain securities are held in omnibus accounts consistent with local market practice and in accordance with ASIC Regulatory Guide 133. In respect of these omnibus accounts, Fund securities are always separately identified in the books and records of Northern Trust.

Disclosure Principles *continued*

Disclosure Principle 4: Valuation, location and custody of assets

Valuation policy	Platinum has appointed Northern Trust to value the assets of each Fund. The NAV of each Fund is calculated in accordance with the relevant Fund's Constitution. The assets of a Fund are normally valued on each Business Day. Generally, Northern Trust values Fund assets using market prices that are electronically sourced from third party data vendors. Northern Trust may also source prices from brokers in certain circumstances. If, in Platinum's reasonable opinion, the value of an asset as provided by Northern Trust is not a fair reflection of the value of the asset that would reasonably be obtained if the asset were to be sold in the market, Platinum's Securities Pricing Committee has established procedures and controls for reviewing, approving and documenting changes to Northern Trust's valuation. Unlisted assets, such as private equity investments, are valued using a price determined by Platinum in accordance with a valuation methodology that has been approved by Platinum's board of directors having regard to certain inputs as provided by independent third parties.						
Asset types and allocation ranges	The principal investments in a Fund are international equities. <table><tr><th>Types of Asset</th><th>Allocation Range (%)</th></tr><tr><td>International equities</td><td>0 – 100</td></tr><tr><td>Cash and cash equivalents</td><td>0 – 100</td></tr></table> Cash and cash equivalents typically represents less than 40% of a Fund's NAV. A Fund may invest in bullion and other physical commodities, but the total value of such investments at the time of acquisition will not exceed 20% of the NAV of the Fund.	Types of Asset	Allocation Range (%)	International equities	0 – 100	Cash and cash equivalents	0 – 100
Types of Asset	Allocation Range (%)						
International equities	0 – 100						
Cash and cash equivalents	0 – 100						
Geographic location of assets	The Funds primarily invest in equity and equity related securities of international companies including those in emerging or frontier markets. The geographic allocation of month-end invested positions in the Funds is available from our website – www.platinum.com.au/investment-updates						
Geographic location of any material asset	A material asset is a significant holding or exposure relative to a Fund's total assets. In general, a Fund will seldom invest more than 5% of the Fund's NAV in the securities of a single issuer (at the time of investment). The geographic allocation of month-end invested positions in the Funds is available from our website – www.platinum.com.au/investment-updates						
Custodial arrangements	Platinum has appointed Northern Trust to act as global custodian for the Funds. Fund securities are generally held by Northern Trust and sub-custodians engaged by Northern Trust. The securities of each Fund are clearly identified from the assets of Platinum, Northern Trust, third party sub-custodians and Northern Trust's other clients. Northern Trust's custody staff are independent of Platinum and Northern Trust plays no investment management role. Generally, cash is deposited with Northern Trust or otherwise with the relevant local sub-custodian, in each case as banker. The custody agreement between Platinum and Northern Trust sets out the required standard of care and conduct required of Northern Trust and its sub-custodians in accordance with ASIC Regulatory Guide 133 and complies with the content requirements for custody agreements under <i>ASIC Corporations (Asset Holding Standards for Responsible Entities) Instrument 2024/16</i>. Northern Trust monitors its sub-custodians and requires them to exercise reasonable care in carrying out the terms specified in their respective sub-custodial agreements. For assets custodied at Northern Trust, Platinum's outsourced middle office services provider performs a daily reconciliation to Northern Trust's records. Platinum may also self-custody certain unlisted securities and rights in respect of OTC derivatives contracts, and may open deposit accounts on behalf of the Funds with Australian banks. Platinum holds these assets on trust for the relevant Fund and ensures that such assets are identified as belonging to the relevant Fund and are not the assets of Platinum.						

Disclosure Principles *continued*

Disclosure Principle 5: Liquidity

Liquidity	The Funds primarily invest in listed international equities traded on regulated exchanges. Platinum generally maintains adequate cash levels in a Fund for the settlement of trades and to meet withdrawals made during the normal course of business.
------------------	---

Disclosure Principle 6: Leverage

Use of leverage and restrictions on the use of leverage	Leverage can be defined as the use of financial products (such as derivatives) or borrowing (such as a margin facility) to amplify the exposure of capital to an investment. A Fund may gain leveraged market exposure through the use of derivatives. Investment restrictions in relation to the use of derivatives are detailed below under Disclosure Principle 7: Derivatives. Whilst there is no restriction on borrowing in the Funds' Constitutions, it is Platinum's policy not to borrow on behalf of any Fund except to the extent short-term overdrafts arise from trade settlement delays.
Source of leverage including type	A Fund may use derivatives including futures, options, swaps, credit default swaps and related instruments, to leverage the Fund.
Collateral usage	Derivative positions are collateralised with cash. No security holding of a Fund is used as collateral. The Funds are exposed to counterparty risk as described in 'Disclosure Principle 1: Investment strategy' on page 6.
Maximum anticipated and allowed level of leverage	The maximum allowable leverage in a Fund is 150% of its NAV, that is, for every \$1 invested, the gross invested position of the Fund taking into account all securities and derivatives (excluding currency derivatives), is limited to \$1.50. For the purposes of this calculation, the notional value of the derivatives is used. Further, this limitation includes all positions and does not allow for netting of any offsetting positions. Although the maximum allowable leverage in a Fund is 150% of the NAV of a Fund, a Fund's positions in long securities and the notional value of derivatives (excluding currency derivatives) would typically be less than 100% of the Fund's NAV. Derivatives can be used to establish short positions in securities and thus reduce a Fund's net exposure to markets (with the exception of the Platinum Global Fund (Long Only)). The notional value of derivatives (excluding currency derivatives) may not exceed 100% of the NAV of a Fund. The table below outlines the history of the use of leverage in the Platinum International Fund. This example can be applied to all Funds with the exception of the Platinum Global Fund (Long Only).

Restrictions on Leverage and Platinum International Fund's Experience Over 5 Years to 30 June 2024

Figures are as a percentage of Fund's NAV

	Allowable		Average	Last 5 Years*	
	Maximum	Minimum		Highest	Lowest
Gross (Long + Short)	150%	50% ¹	101%	118%	91%
Long positions	150%	50% ¹	87%	95%	76%
Short positions	50% ¹	0%	14%	28%	2%
Net (Long – Short)	150% ²	50% ¹	74%	91%	54%

¹ This restriction is implied only by the Fund's requirement to be "typically at least 50% net invested".

² Though maximum is 150%, typically the actual position will be less than 100%.

* Based on month-end positions.

Disclosure Principles *continued*

Impact of leverage on investment returns and losses

The maximum allowable leverage with greatest impact on Fund returns would likely be where a Fund was 150% long. In such a case, if the value of a Fund's securities (or the underlying securities of derivatives) increased in value by 10%, the increase in a Fund's NAV would be 15%.

Conversely, a fall of 10% in the value of a Fund's securities (or the underlying securities of derivatives) would result in a fall of a Fund's NAV of 15%.

It should be noted that as per the table above the Funds have not historically held positions of this magnitude.

Disclosure Principle 7: Derivatives

Purpose and rationale for the use of derivatives

Platinum may use derivatives:

- for risk management purposes;
- to take opportunities to increase returns;
- to create short positions in securities or indices;
- to manage currency exposures;
- to establish positions in securities that may otherwise not be readily available (e.g. to gain access to particular stock markets where foreign investors face restrictions); and
- to aid in the management of Fund cash flows (e.g. some stock markets require pre-funding of stock purchases that may be avoided through the use of derivatives).

Platinum has set the following investment restrictions in respect of each Fund:

- the notional value[#] of derivatives (excluding currency derivatives) may not exceed 100% of the NAV of a Fund; and
- the value[#] of long stock positions and the notional value of derivatives positions (excluding currency derivatives) together will not exceed 150% of the NAV of a Fund.

[#] Where options are employed, the notional value will be the Delta adjusted exposure. "Delta" is the theoretical measure of the sensitivity of the option price to a change in the price of the underlying asset (usually expressed as a percentage).

Types of derivatives used

Platinum currently uses the following derivatives: futures, options, swaps (currency and equity), credit default swaps, foreign exchange forwards and related instruments.

Criteria for engaging derivative counterparties

Over-the-counter ("OTC") derivative transactions may only be entered into with approved counterparties.

Consideration is given to the financial position and credit rating of the counterparty. Counterparties are engaged through standard market contracts such as the International Swaps and Derivatives Association Master Agreement.

The aggregate exposure of each of the Platinum International Fund and the Platinum Asia Fund to all OTC derivative counterparties will typically be no more than 5% of the NAV of the relevant Fund, and in any event will not exceed 10% of the NAV of the relevant Fund.

Key risks associated with collateral requirements

Trading in OTC derivatives generally requires the lodgement of collateral (also known as 'credit support', such as margin or a guarantee) with the counterparty. This gives rise to counterparty risk. Financial transactions that are conducted via the OTC market and which are not subject to clearing obligations, generally carry greater counterparty risk than securities traded on a recognised exchange (where the other party to the transaction is the exchange's clearing house).

Trading mechanism for derivatives utilised

Platinum uses both OTC and exchange traded derivatives (i.e. those traded on a recognised derivatives exchange).

Disclosure Principles *continued*

Disclosure Principle 8: Short selling

Rationale	The rationale behind short selling is to profit from a fall in the price of a particular security (e.g. share, index, exchange traded fund). From time to time, Platinum applies an active short selling strategy for a Fund and the level of short selling will differ between the Funds. Platinum may use short selling to reduce a Fund's net invested position and to take opportunities to increase returns. Platinum generally utilises equity swaps to short sell. A swap is a derivative contract, in which two parties (counterparties) agree to exchange payments of value (or cash flows) for another. Normally, they are cash settled non-deliverable contracts (i.e. settled for a profit or loss). Short selling is not undertaken for the Platinum Global Fund (Long Only) – refer to page 17.																								
Risks	In taking a short position, Platinum expects the asset to depreciate although there is a risk that the asset could appreciate. Unlike a long security position, losses can exceed the amount initially invested.																								
Risk management	The risks associated with short selling are managed in the same way as the risks associated with holding a long security, that is, thorough research, daily reporting and ongoing monitoring of positions held.																								
Short selling example (loss)	Platinum short sells (via a swap agreement) 10,000 shares of ABC @ \$100 and closes the position when the share price rises to \$120 by entering into an equal and opposite trade. <table><tr><th>Trade</th><th>No. of Shares</th><th>Share Price (\$)</th><th>Total Income/ Cost (\$)</th></tr><tr><td>Opening sell</td><td>10,000</td><td>100</td><td>1,000,000</td></tr><tr><td>Borrowing cost and commission</td><td></td><td></td><td>(200)</td></tr><tr><td>Interest receivable</td><td></td><td></td><td>250</td></tr><tr><td>Closing buy</td><td>10,000</td><td>120</td><td>(1,200,000)</td></tr><tr><td>Loss</td><td></td><td></td><td>(199,950)</td></tr></table> There will be additional costs and revenues from borrowing costs, commissions and the return of dividends.	Trade	No. of Shares	Share Price (\$)	Total Income/ Cost (\$)	Opening sell	10,000	100	1,000,000	Borrowing cost and commission			(200)	Interest receivable			250	Closing buy	10,000	120	(1,200,000)	Loss			(199,950)
Trade	No. of Shares	Share Price (\$)	Total Income/ Cost (\$)																						
Opening sell	10,000	100	1,000,000																						
Borrowing cost and commission			(200)																						
Interest receivable			250																						
Closing buy	10,000	120	(1,200,000)																						
Loss			(199,950)																						
Short selling example (profit)	Platinum short sells (via a swap agreement) 10,000 shares of ABC @ \$100 and closes the position when the share price falls to \$80. <table><tr><th>Trade</th><th>No. of Shares</th><th>Share Price (\$)</th><th>Total Income/ Cost (\$)</th></tr><tr><td>Opening sell</td><td>10,000</td><td>100</td><td>1,000,000</td></tr><tr><td>Borrowing cost and commission</td><td></td><td></td><td>(200)</td></tr><tr><td>Interest receivable</td><td></td><td></td><td>250</td></tr><tr><td>Closing buy</td><td>10,000</td><td>80</td><td>(800,000)</td></tr><tr><td>Profit</td><td></td><td></td><td>200,050</td></tr></table> There will be additional costs and revenues from borrowing costs, commissions and the return of dividends.	Trade	No. of Shares	Share Price (\$)	Total Income/ Cost (\$)	Opening sell	10,000	100	1,000,000	Borrowing cost and commission			(200)	Interest receivable			250	Closing buy	10,000	80	(800,000)	Profit			200,050
Trade	No. of Shares	Share Price (\$)	Total Income/ Cost (\$)																						
Opening sell	10,000	100	1,000,000																						
Borrowing cost and commission			(200)																						
Interest receivable			250																						
Closing buy	10,000	80	(800,000)																						
Profit			200,050																						

Disclosure Principles *continued*

Disclosure Principle 9: Withdrawals

Significant risk factors/limitations	In certain situations that impact on the effective and efficient operation of a market for an asset or assets of a Fund, we may choose to suspend the processing of all applications and withdrawals for a Fund. If this occurs, in determining the value of an asset, we will use the asset values determined after the suspension is lifted. Examples of such situations may include but are not limited to: global health pandemics, the threat of terrorist attacks, war or other circumstances that affect the normal operation of financial markets or the operation of custodians and Platinum's counterparties. Platinum will generally honour all withdrawal requests from Investors, subject to the Fund being liquid. If a Fund is not liquid, Investors may withdraw in accordance with any withdrawal offer made by Platinum. Please refer to 'Withdrawals' on page 38.
Withdrawal rights and conditions	You may request a full or partial withdrawal at any time subject to minimum withdrawal amounts and minimum balance requirements. You may request a withdrawal in writing or you may complete a Withdrawal Form available from Platinum's website or Investor Services. Withdrawal requests received (and accepted by us) by 3:00pm AEST on a Business Day will generally be processed with the exit price calculated for that Business Day. Withdrawal requests received (and accepted) after 3:00pm AEST on a Business Day (but before the next processing cut-off time) will generally be processed using the exit price calculated for the following Business Day. Subject to receiving a withdrawal request acceptable to Platinum, the proceeds can be paid by Electronic Funds Transfer to an Investor's nominated Australian or New Zealand financial institution account or by cheque, payable to the Investor in Australian dollars. Please refer to page 38 for more information.
Funding of withdrawals	Investor withdrawals are funded from the assets of the relevant Fund.
Changes to withdrawal rights	Investors will be notified of any changes to their withdrawal rights in accordance with our obligations under the Corporations Act.

Benchmarks

Benchmark 1: Valuation of assets

Valuation of non-exchange traded assets

Generally, Fund assets are valued using a price provided by Northern Trust. In certain rare circumstances, independent valuations may not be available, for example for certain private equity investments. In these instances, prices are determined in accordance with a valuation methodology that has been approved by Platinum's board of directors having regard to certain inputs provided by independent third parties. Platinum may also make adjustments to the value of a non-exchange traded asset as provided by Northern Trust where in Platinum's reasonable opinion the value is not a fair reflection of the value that would reasonably be obtained if the asset were to be sold in the market. Platinum's Securities Valuation Committee has established procedures and controls for reviewing, approving and documenting any changes to values provided by Northern Trust.

Benchmark 2: Periodic reporting

Periodic reporting of key information

Platinum has policies in place to make available on our website the following information for each Fund as soon as practical after the relevant period:

Daily unit prices

Monthly

Month-end invested positions/asset allocation

Month-end net performance after fees, costs and fund taxes

Month-end total net asset value and the withdrawal value of each Unit Class

Changes to key service providers (if any)

Material changes to the risk profile (if any)

Material changes to the strategy (if any)

Changes in the individuals playing a key role in investment decisions (if any)

Annually

Annual investment returns over at least a five-year period

Liquidity profile of the Portfolio assets

Maturity profile of financial liabilities relative to the liquidity profile of the Portfolio assets

Leverage ratio of the Portfolio

Derivative counterparties engaged

Platinum Trust Funds

What Funds are offered?

	Refer to page
Platinum International Fund	17
Platinum Global Fund (Long Only)	17
Platinum Asia Fund	18
Platinum European Fund	18
Platinum Japan Fund	19
Platinum International Brands Fund	19
Platinum International Health Sciences Fund	20
Platinum International Technology Fund	20

The structure of the Funds

Each Fund is an Australian unit trust registered as a managed investment scheme. Unit trusts are vehicles which enable investors to pool their money with that of other investors. This pooling, amongst other features, enables you to invest in markets that may otherwise be difficult to access.

Money invested will purchase a number of units which represent the Investor's holding in a Fund. Each unit in a Fund confers an equal and proportionate beneficial interest in the net assets of the Fund. The ownership of a unit will not give you an interest in any particular part of a Fund's assets or investments, or an entitlement to exercise any right, voting interest or power in respect of any such asset or investment, or an entitlement to participate in the management or operation of a Fund other than through unit holder meetings.

The operation of each Fund is regulated by the Corporations Act, its Constitution and the general law of Australia.

The Constitution of a Fund sets out the terms under which the Fund is to operate, the rights and liabilities of Investors, and the rights, powers, responsibilities and duties of Platinum as Responsible Entity of the Fund. Investors are bound by the provisions of the Fund's Constitution.

In summary, the principal rights of an Investor in a Fund are to:

- share in the Fund's investment returns;
- withdraw units held (subject to prevailing market conditions*);
- requisition, attend and vote at unit holder meetings; and
- share in the distribution of assets if the Fund is wound up.

* Refer to 'Withdrawals – Significant risk factors / limitations' on page 14 of the PDS.

Who is eligible to invest?

The Funds are open for investment to persons receiving the PDS in **Australia** or **New Zealand**.

This PDS has not been registered as an investment offer in any other country.

Applications can be made by:

- individuals (non-superannuation monies);
- companies;
- trustees (of, for example, superannuation funds, charities, family trusts);
- government bodies;
- incorporated bodies (for example, companies, strata bodies corporate, associations, unions);
- others (for example, partnerships, unincorporated associations, registered co-operatives); and
- Investor Directed Portfolio Services ("IDPS"), IDPS-like schemes or nominee or custody services (for example, wrap, master trust) where Platinum has entered into an agreement for the Funds to be offered through the service.

The Funds' Constitutions allow Platinum to accept or refuse any application.

Warning

The Funds are not suited to Investors who:

1. Expect returns to mirror or better an index at all times. Platinum's investment process pays no heed to recognised benchmarks, such as indices issued by MSCI Limited.
2. Expect to make significant short-term gains. The minimum suggested time horizon for each Fund is five or more years.
3. Cannot tolerate that there may be substantial fluctuations in the value of their investment. Equity markets are volatile and fluctuations will occur in the value of your investment in the Funds.

Refer further to 'Risks of strategy' on page 5. We also recommend that you read the target market determination for a Fund (available from Platinum's website or Investor Services) before making a decision to invest in the Fund.

Platinum International Fund

Investment objective

The Fund aims to provide capital growth over the long-term by investing in undervalued companies from around the world.

The Fund's investments

The Fund primarily invests in listed equity securities. The Portfolio will ideally consist of 40 to 80 securities that Platinum believes to be undervalued by the market. Cash may be held when undervalued securities cannot be found. Platinum may short sell securities that it considers overvalued and may also use derivatives. Refer further to 'Disclosure Principle 8: Short selling' on page 13 and 'Disclosure Principle 7: Derivatives' on page 12.

The Portfolio will typically have 50% or more net equity exposure.

The Portfolio is constructed in accordance with Platinum's 'Investment Strategy' – refer to page 4.

Portfolio value as at 31 August 2024*

\$4,962.9 million

Minimum suggested time horizon

Five or more years

Income distribution

Annually as at 30 June. Platinum has discretion to make interim or special distributions during the financial year.

Fund established

4 April 1995

Platinum Global Fund (Long Only)

Investment objective

The Fund aims to provide capital growth over the long-term by investing in undervalued companies from around the world.

The Fund's investments

The Fund primarily invests in listed equity securities. The Portfolio will ideally consist of 40 to 80 securities that Platinum believes to be undervalued by the market. The Fund does not engage in short selling but may use derivatives to achieve long equity exposure and for currency management purposes. Refer further to 'Disclosure Principle 7: Derivatives' on page 12.

The Portfolio will typically have around 75% or more net equity exposure.

The Portfolio is constructed in accordance with Platinum's 'Investment Strategy' – refer to page 4, except that there is no short selling of indices or stocks.

Portfolio value as at 31 August 2024*

\$151.6 million

Minimum suggested time horizon

Five or more years

Income distribution

Annually as at 30 June. Platinum has discretion to make interim or special distributions during the financial year.

Fund established

19 January 2005 [offered to retail investors from 5 March 2007]

Refer to the Fund's **monthly update** and **quarterly investment report** for the latest information on investments held, and the Portfolio Manager's comments on Fund performance and outlook. Both are available from Platinum's website or Investor Services.

* Portfolio value represents C Class and P Class units.

Platinum Asia Fund

Investment objective

The Fund aims to provide capital growth over the long-term by investing in undervalued companies in the Asian region excluding Japan.

The Fund's investments

The Fund primarily invests in listed equity securities of Asian companies. Asian companies may list their securities on securities exchanges other than those in Asia and the Fund may invest in those securities. The Fund may invest in companies not listed in Asia but where their predominant business is conducted in Asia. The Fund may invest in companies that benefit from exposure to the Asian economic region.

Platinum defines "**Asia**" as all countries that occupy the eastern part of the Eurasian landmass and its adjacent islands and is separated from Europe by the Ural Mountains, and includes companies based in China, Hong Kong, Taiwan, Korea, Malaysia, Singapore, India, Thailand, Indonesia, Philippines, Sri Lanka, Pakistan and Vietnam.

The Portfolio will ideally consist of 30 to 80 securities that Platinum believes to be undervalued by the market. Cash may be held when undervalued securities cannot be found. Platinum may short sell securities that it considers overvalued and may also use derivatives. Refer further to 'Disclosure Principle 8: Short selling' on page 13 and 'Disclosure Principle 7: Derivatives' on page 12.

The Portfolio will typically have 50% or more net equity exposure.

The Portfolio is constructed in accordance with Platinum's 'Investment Strategy' – refer to page 4.

Portfolio value as at 31 August 2024*

\$2,010.9 million

Minimum suggested time horizon

Five or more years

Income distribution

Annually as at 30 June. Platinum has discretion to make interim or special distributions during the financial year.

Fund established

3 March 2003

Platinum European Fund

Investment objective

The Fund aims to provide capital growth over the long-term by investing in undervalued companies in the European region.

The Fund's investments

The Fund primarily invests in listed equity securities of European companies. European companies may list their securities on exchanges other than those in Europe and the Fund may invest in those securities. The Fund may invest in companies not listed in Europe but where their predominant business is conducted in Europe.

Platinum defines "**Europe**" as all countries from the UK to the Ural Mountains, a line which runs from the Arctic to the Caspian Sea and then to the Black Sea, and including Kazakhstan, Uzbekistan, Kyrgyzstan, Tajikistan, Turkmenistan, Azerbaijan, Armenia and Georgia.

The Portfolio will ideally consist of 30 to 80 securities that Platinum believes to be undervalued by the market. Cash may be held when undervalued securities cannot be found. Platinum may short sell securities that it considers overvalued and may also use derivatives. Refer further to 'Disclosure Principle 8: Short selling' on page 13 and 'Disclosure Principle 7: Derivatives' on page 12.

The Portfolio will typically have 50% or more net equity exposure.

The Portfolio is constructed in accordance with Platinum's 'Investment Strategy' – refer to page 4.

Portfolio value as at 31 August 2024*

\$265.8 million

Minimum suggested time horizon

Five or more years

Income distribution

Annually as at 30 June. Platinum has discretion to make interim or special distributions during the financial year.

Fund established

12 June 1998

Refer to the Fund's **monthly update** and **quarterly investment report** for the latest information on investments held, and the Portfolio Manager's comments on Fund performance and outlook. Both are available from Platinum's website or Investor Services.

* Portfolio value represents C Class and P Class units.

Platinum Japan Fund

Investment objective

The Fund aims to provide capital growth over the long-term by investing in undervalued companies in Japan.

The Fund's investments

The Fund primarily invests in listed equity securities of Japanese companies. These companies may list their securities on exchanges other than those in Japan and the Fund may invest in them. The Fund may invest in companies not listed in Japan, but where their predominant business is conducted in Japan.

The Portfolio will ideally consist of 30 to 80 securities that Platinum believes to be undervalued by the market. Cash may be held when undervalued securities cannot be found. Platinum may short sell securities that it considers overvalued and may also use derivatives. Refer further to 'Disclosure Principle 8: Short selling' on page 13 and 'Disclosure Principle 7: Derivatives' on page 12.

The Portfolio will typically have 50% or more net equity exposure.

The Portfolio is constructed in accordance with Platinum's 'Investment Strategy' – refer to page 4.

Portfolio value as at 31 August 2024*

\$282.3 million

Minimum suggested time horizon

Five or more years

Income distribution

Annually as at 30 June. Platinum has discretion to make interim or special distributions during the financial year.

Fund established

12 June 1998

Refer to the Fund's **monthly update** and **quarterly investment report** for the latest information on investments held, and the Portfolio Manager's comments on Fund performance and outlook. Both are available from Platinum's website or Investor Services.

* Portfolio value represents C Class and P Class units.

Platinum International Brands Fund

Investment objective

The Fund aims to provide capital growth over the long-term by investing in well-recognised as well as up-and-coming, consumer brand names (including but not limited to producers of household consumables and durables, luxury goods, retailers, and consumer services in areas such as finance, travel, leisure, and digital media).

We believe that successful brand management involves establishing an association in the minds of consumers with the positive tangible and intangible traits of the product or service. Tangible aspects may include high quality products, low-priced merchandise, or high convenience or most useful service; and intangible features such as luxuriousness, dependability, or perceived safety. The successful maintenance of this association causes consumers to purchase the product or use the service in preference to alternative options, and can allow the brand-owner to earn an economic rent above its cost of capital while generating above-average growth. We utilise this brand framework to identify attractive investment opportunities in consumer brand companies. Our investment case may be driven by aspects such as our view on future growth, the potential of recovery from a period of mismanagement, or the possibility of recognition of latent brand value by a strategic partner.

The Fund's investments

The Fund primarily invests in listed equity securities. The Fund invests in a diverse range of branded consumer companies from well-recognised multinationals with iconic globally recognised consumer brands, through to companies with local or regional brands that have little or no recognition outside of their home market. Accordingly, the Fund can have investments in companies listed on exchanges across a wide variety of countries including those considered to be emerging or developing markets which, in aggregate, could be a significant proportion of the Fund.

The Portfolio will ideally consist of 30 to 80 securities that Platinum believes to be undervalued by the market. Cash may be held when undervalued securities cannot be found. Platinum may short sell securities that it considers overvalued and may also use derivatives. Refer further to 'Disclosure Principle 8: Short selling' on page 13 and 'Disclosure Principle 7: Derivatives' on page 12.

The Portfolio will typically have 50% or more net equity exposure.

The Portfolio is constructed in accordance with Platinum's 'Investment Strategy' – refer to page 4.

Portfolio value as at 31 August 2024*

\$281.3 million

Minimum suggested time horizon

Five or more years

Platinum International Health Sciences Fund

Investment objective

The Fund aims to provide capital growth over the long-term by investing in undervalued securities of companies in and/or related to the health care industry.

The Fund seeks to take advantage of the substantial changes that are occurring in the fields of health care and medicine.

The Fund's investments

The healthcare industry includes (but is not limited to) biotechnology, pharmaceuticals, diagnostics, laboratory technologies, distributors of healthcare products, equipment and services, hospitals and nursing care, health insurance and information technology providers to such companies.

The Fund may invest in companies that derive or are expected to derive at least 50% of their turnover, revenue or profits from the health care industry. These may be companies which provide health care products and services to consumers or which provide products and services to the health care industry.

The Fund will invest in companies engaged in early stage research and the development of new drugs or treatments.

The Fund primarily invests in listed equity securities but may invest up to 20% of the Fund's NAV in unlisted securities.

The Portfolio will ideally consist of 30 to 80 securities that Platinum believes to be undervalued by the market. Cash may be held when undervalued securities cannot be found. Platinum may short sell securities that it considers overvalued and may also use derivatives. Refer further to 'Disclosure Principle 8: Short selling' on page 13 and 'Disclosure Principle 7: Derivatives' on page 12.

The Portfolio will typically have 50% or more net equity exposure.

The Portfolio is constructed in accordance with Platinum's 'Investment Strategy' – refer to page 4.

Portfolio value as at 31 August 2024*

\$362.7 million

Minimum suggested time horizon

Five or more years

Fund established

5 November 2003

Refer to the Fund's **monthly update** and **quarterly investment report** for the latest information on investments held, and the Portfolio Manager's comments on Fund performance and outlook. Both are available from Platinum's website or Investor Services.

Platinum International Technology Fund

Investment objective

The Fund aims to provide capital growth over the long-term by investing in information technology, telecommunications and electronics companies from around the world, including providers of hardware, software, services and content.

The Fund's investments

The Fund primarily invests in technology and telecom equity securities listed on securities markets around the world.

The Fund will also invest in equity securities issued by providers of computing, networking and telecommunications equipment, software, semi-conductors and related capital equipment providers, IT services, as well as network operators, content providers and "Internet" based businesses.

The Portfolio will ideally consist of 30 to 80 securities that Platinum believes to be undervalued by the market. Cash may be held when undervalued securities cannot be found. Platinum may short sell securities that it considers overvalued and may also use derivatives. Refer further to 'Disclosure Principle 8: Short selling' on page 13 and 'Disclosure Principle 7: Derivatives' on page 12.

The Portfolio will typically have 50% or more net equity exposure.

The Portfolio is constructed in accordance with Platinum's 'Investment Strategy' – refer to page 4.

Portfolio value as at 31 August 2024*

\$124.1 million

Minimum suggested time horizon

Five or more years

Income distribution

Annually as at 30 June. Platinum has discretion to make interim or special distributions during the financial year.

Fund established

18 May 2000

* Portfolio value represents C Class and P Class units.

The Funds' Investments

Authorised Investments

The Constitutions of the Funds permit a wide range of investments. Notwithstanding this wide range of investments, Platinum typically invests in listed equity securities of companies, cash and cash equivalents, derivatives (including OTC derivatives) and foreign exchange contracts.

The Platinum International Fund and the Platinum Asia Fund will not invest in unlisted equity securities, except in the case of initial public offers of securities, or where an unlisted securities holding arises inadvertently, for example due to a corporate event. Any investments in such unlisted securities will be kept to a *de minimis* amount at all times.

A Fund may invest in bullion and other physical commodities, but the total value of such investments at the time of acquisition will not exceed 20% of the NAV of the Fund.

Currency

International equity investments create an exposure to foreign currency fluctuations, which can change the value of the equity investments measured in a Portfolio's reporting currency (the Australian dollar). Assessment of potential returns and risks created by currency exposure, and appropriate positioning of a Fund's Portfolio to attempt to capture those returns, and minimise those risks, are a component of Platinum's investment process.

Platinum may seek to hedge a Fund's foreign currency exposure using foreign exchange forwards, swaps, non-deliverable forwards, currency options and spot foreign exchange trades.

More generally, Platinum will take account of currency exposures in an attempt to maximise returns and minimise risks in a Fund's Portfolio. This includes assessing the indirect impact of currency on a business (e.g. the impact of currency fluctuations on a manufacturing company with significant export sales), and the potential for exchange rate movements to amplify or diminish reporting currency returns for a holding. The investment of cash holdings is also undertaken with consideration of the potential currency impact on the cash (as well as interest rate and credit risk considerations).

The aim is for a Fund's Portfolio to be exposed to the greatest extent possible to appreciating currencies and to a minimum to depreciating currencies.

Platinum assesses the prospects for foreign currencies by analysing a wide range of applicable factors using a range of sources including research from analysts at investment banks and stockbrokers, government papers and statistics, and findings and insights derived from our stock research. Over any period, movement of currencies can be driven by a number of these factors, and indeed the importance of speculative/capital markets driven flows can be a significant driver in the short to medium term.

Each Portfolio Manager expresses their own conclusions through their Portfolio positioning.

Securities lending

The Funds' Constitutions permit Platinum to enter into securities lending arrangements.

Labour standards, environmental, social and ethical considerations

Platinum is a signatory to the UN Principles for Responsible Investment ("PRI") and thereby has made the commitment that "as an institutional investor, we have a duty to act in the best long-term interests of our beneficiaries. In this fiduciary role, we believe that environmental, social, and corporate governance issues can affect the performance of investment portfolios".¹

A summary of how we incorporate labour standards, environmental, social, governance and ethical considerations ("ESG") into our investment decision-making and ownership practices is set forth below:

Application of exclusions

Platinum exercises caution when setting exclusionary screens. We believe that proactive engagement with companies can be a more effective tool for influencing companies to act in a more responsible manner with regard to ESG considerations (discussed further under 'Engagement'). We believe that extensive exclusionary screening may risk excluding potentially profitable investments from our investable universe.

However, we currently apply screens against the following categories of companies which present social issues on which we hold a strong view and where there may be broad but not universal agreement in society:

- a. Tobacco:** companies engaged in the manufacture of tobacco products; companies engaged in the distribution and/or retail sale of tobacco products where the revenue derived is 5% or more of a company's reported or estimated revenue²; and companies engaged in the supply of tobacco-related products/services where the revenue derived is 5% or more of a company's reported or estimated revenue²;
- b. Nuclear weapons:** companies engaged in the manufacture or sale of nuclear warheads; companies involved in the production of nuclear weapon components or delivery platforms where the revenue derived is 5% or more of a company's reported or estimated revenue²;
- c. Controversial weapons:** companies engaged in the manufacture of controversial weapons (i.e. anti-personnel mines, cluster munitions, biological and chemical weapons, and white phosphorus);
- d. Pornography:** companies involved in the production of adult entertainment and/or which own or operate adult entertainment establishments; and companies involved in the distribution of adult entertainment materials where the revenue derived is 5% or more of a company's reported or estimated revenue².

Screens are applied where a company is directly involved (by itself or a majority owned subsidiary) in a product or service outlined above. Platinum utilises third party data vendors to screen companies according to the criteria set forth above. These vendors use company-reported revenue (where available) and estimates to determine revenue-based levels of involvement. In limited cases, Platinum may override the exclusion if, after further review and due diligence, Platinum is able to objectively substantiate that a company does not qualify for exclusion.

1 As per the UN PRI Signatory Commitment Statement.

2 By our third party data vendors.

Platinum also screens investments having regard to applicable sanctions programmes.

It is possible that the Funds may have a small level of unintended exposure to excluded companies and/or minimum revenue thresholds (as disclosed) may be exceeded. This could occur in the following circumstances:

1. there is a lack of data availability from our data providers on revenue involvement due to limited disclosure from a company or the timing of collection or reporting of this information by our data provider, and/or,
2. in the event that a company's revenue mix changes (e.g. as a result of merger or demerger activity, change in business unit performance, or improved disclosure of revenues) and exceeds the revenue thresholds disclosed and we are unable to exit an investment immediately.

Platinum may invest in index options, futures, exchange traded funds or other externally managed investment vehicles. Platinum does not apply the negative exclusionary screens against these investments or their underlying constituents which may result in indirect exposure to excluded companies and/or minimum revenue thresholds (as disclosed) being exceeded.

ESG analysis in stock research

Platinum's central endeavour is to deliver absolute returns for our investors over the long-term by investing in companies that we believe are undervalued. We have a contrarian, long-term investment philosophy. Our detailed fundamental investment research looks beyond short-term market turbulence caused by events of a transient nature to seek out 'unfashionable' companies whose actual worth is greater than the value implied in their present share price.

We believe that ESG considerations can impact on a company's financial performance and, consequently, a company's valuation. Such issues can have an impact on the environment and/or communities in which a company is operating and may also represent legal, regulatory, operational and/or economic risks and opportunities, potentially impacting a company's financial performance and hence investor returns.

Although Platinum has no predetermined view about what it regards to be an ESG consideration, some examples of ESG issues that companies may potentially be facing, include but are not limited to; greenhouse gas emissions, nature & biodiversity, resources management, human rights & modern slavery, board composition, management incentivisation, cybersecurity, and ethical business practices.

ESG issues are identified and monitored on an ongoing basis through our fundamental investment research process, supported by a range external data providers. However, we do not rely on ESG scores from 3rd-party data providers. Platinum has no predetermined view or methodology for determining how far it will take ESG considerations into account when making investment decisions for a Fund, other than we will take ESG considerations into account that we may become aware of, but only to the extent such issues impact our view of a company's inherent value and hence the return on our investment.

Consideration of ESG issues provides us with an expanded information set by which we assess the risks and opportunities facing companies.

Our approach to ESG is a continual work-in-progress as we seek to refine and balance our investment approach to these issues whilst maintaining our primary objective of seeking long-term absolute returns for our clients.

Engagement

Our approach to responsible investment is primarily designed to focus on engagement. We understand that value creation by companies can take time and we look to support companies as they make progress on their ESG strategies.

We understand that companies behave differently depending on multiple factors including stage of development, size of workforce, environmental footprint and geographic exposure. As such, we do not adopt a one-size-fits-all approach and we tailor our engagements to the individual company. We are also realistic about the extent to which we can effect change through active engagement.

Company engagements are typically led by the responsible analyst and supported by our Head of Stewardship. Our analysts will generally meet (either in person or virtually) with members of a company's management team both before we initiate a position in the company and periodically after we have invested in it.

Where we deem that our engagements are not achieving the desired outcomes, we may escalate our actions to include one or any combination of the following:

- Additional engagement potentially with other management members or the board including via sending shareholder letters;
- Exercising our proxy voting rights;
- Collaborative investor action for example via the PRI or with other institutional investors; and/or
- Reducing or divesting our holding.

Platinum has a targeted engagement strategy that focuses engagement with companies on financially material ESG issues (as guided by the by the SASB³ materiality map) as well as ESG issues that are aligned with the SDG pillars of our corporate strategy i.e. gender equality, climate action, decent work and economic growth, and peace, justice and strong institutions.

This engagement strategy has been generally developed for a "priority list"⁴ of companies based on a number of criteria which may include:

- Companies that represent a significant weighting in aggregate across the portfolios we manage;
- Where we have a substantial holding in a company (measured in aggregate across the portfolios we manage); and/or
- Companies that we have held within the portfolios we manage for an extended period of time.

³ Sustainability Accounting Standards Board.

⁴ Comprising companies accounting for ~50% of Platinum's funds under management.

The Funds' Investments continued

To support this work, we use a proprietary engagement reporting template to enable us to record, set objectives and report on the progress of company engagements and subsequent potential engagement outcomes over time.

Further details can be found in our Responsible Investing Policy www.platinum.com.au/media/Platinum/About/ptm_responsible_investment.pdf and our Sustainability and Stewardship Report www.platinum.com.au/media/Platinum/Default/SSR-August-2024-FINAL.pdf

Proxy Voting

Platinum views proxy voting as an important component of our investment stewardship approach.

We consider all proxy voting proposals and vote on a case-by-case basis, taking into account specific company, sector, regional and/or market considerations as well as the best interests of our clients. We will generally vote with management except as set out in the guidelines in our Proxy Voting Policy (link below) or where we hold a contrary view on a particular motion.

Further details can be found in our Proxy Voting Policy www.platinum.com.au/media/Platinum/Default/PTM-Proxy-Voting-Policy.pdf

Managing conflicts of interest

As a responsible entity, trustee, investment manager and SEC registered investment adviser, Platinum owes a fiduciary duty to its clients and investors. We are required to avoid or otherwise manage (including through disclosure) all conflicts or potential conflicts arising between Platinum's interests, and the interests of Platinum's clients and investors.

In accordance with Platinum's Business Rules of Conduct, all employees are required to report any such conflicts or potential conflicts of interest, to Platinum's Chief Compliance Officer.

Furthermore, as a fully independent asset management firm, Platinum does not belong to any corporate group.

Fees and Other Costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask the fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** Moneysmart website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

Fees and other costs

This section shows fees and other costs that you may be charged. These fees and costs may be deducted from your money, from the returns on your investment or from the assets of the managed investment scheme as a whole.

Taxes are set out in another part of this document.

You have two different fee payment options:

(a) to pay fees under the Standard Fee Option; or (b) to pay fees under the Performance Fee Option

You should read all the information about fees and costs because it is important to understand their impact on your investment.

Fees and costs summary

Platinum Trust Funds			
Type of fee or cost		Amount	How and when paid
		C Class and E Class* - Standard Fee Option	P Class - Performance Fee Option
Ongoing annual fees and costs			
Management fees and costs		Estimated management fees and costs per annum are:	
The fees and costs of managing your investment.		The estimated management fees and costs of a Fund consist of:	
Platinum International Fund		1.38%	1.13%
Platinum Global Fund (Long Only)		1.35%	1.10%
Platinum Asia Fund		1.51%	1.26%
Platinum European Fund		1.49%	1.24%
Platinum Japan Fund		1.37%	1.12%
Platinum International Brands Fund		1.53%	1.28%
Platinum International Health Sciences Fund		1.35%	1.10%
Platinum International Technology Fund		1.36%	1.11%
Performance fees		Estimated performance fees ³ per annum are:	
Amounts deducted from your investment in relation to the performance of the product.		Investment performance fee (only applicable if you choose the P Class - Performance Fee Option)	
Platinum International Fund		Nil	0.00%
Platinum Global Fund (Long Only)		Nil	0.00%
Platinum Asia Fund		Nil	0.22%
Platinum European Fund		Nil	0.00%
Platinum Japan Fund		Nil	0.00%
Platinum International Brands Fund		Nil	0.00%
Platinum International Health Sciences Fund		Nil	0.65%
Platinum International Technology Fund		Nil	0.00%

1 The investment management fees are inclusive of Australian GST less any expected input tax credits and reduced input tax credits.

2 The estimated indirect costs reflect Platinum's reasonable estimates of the typical ongoing amounts for the current financial year, based on the actual amounts incurred for the last financial year.

3 The estimated performance fees reflect Platinum's reasonable estimates of the typical ongoing amounts for the current financial year, based on the performance fee charged to P Class units of a Fund, averaged over the last five years up to and including 30 June 2024. They are inclusive of Australian GST less any expected input tax credits.

4 The hurdle return is the return of a Fund's nominated index as set forth on page 32.

* E Class is closed to new investors. E Class is only available to existing E Class investors for the reinvestment of distributions.

The fee to close your investment.	Nil	Nil	N/A
Switching fee			
The fee for changing investment options.	Nil	Nil	N/A

5 The estimated transaction costs for a Fund reflect Platinum's reasonable estimates of the typical ongoing amounts for the current financial year, based on the actual amounts incurred for the last financial year and are shown net the total amount recovered by the Fund through the buy/sell spread charged to applicants and withdrawing Investors.

6 As at the date of this PDS the actual buy/sell spread for each Fund is 0.15%/0.15%, with the exception of the Platinum European Fund and Platinum International Brands Fund (which is 0.20%/0.20%) and the Platinum International Technology Fund and Platinum Global Fund (Long Only) (which is 0.10%/0.10%). Any changes to a Fund's actual buy/sell spread will be updated on Platinum's website as per the links provided under the Additional Explanation of Fees and Costs on page 33.

* E Class is closed to new investors. E Class is only available to existing E Class investors for the reinvestment of distributions.

Fees and Other Costs *continued*

Example of annual fees and costs

C Class and E Class - Standard Fee Option

This table gives an example of how the ongoing annual fees and costs for a Fund can affect your investment over a 1-year period. You should use this table to compare this product with other products offered by managed investment schemes.

EXAMPLE – Platinum International Fund – C Class and E Class		Balance of \$50,000 with a contribution of \$5,000 during year
Contribution fees	Nil	For every additional \$5,000 you put in, you will be charged \$0
PLUS Management fees and costs	1.38% p.a.	And , for every \$50,000 you have in the Platinum International Fund – C Class and E Class you will be charged or have deducted from your investment \$690 each year
PLUS Performance fees	Nil	And , you will be charged or have deducted from your investment \$0 in performance fees each year
PLUS Transaction costs	0.13% p.a.	And , you will be charged or have deducted from your investment \$65 in transaction costs
EQUALS Cost of Platinum International Fund – C Class and E Class	1.51% p.a.	If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs in the range of \$755* . What it costs you will depend on the fees you negotiate.

* Additional fees may apply: A buy spread of 0.15%, equal to \$7.50 on a \$5,000 contribution will apply. If you leave the managed investment scheme, you will be charged a sell spread of 0.15%, equal to \$75.00 for every \$50,000 you withdraw. This amount excludes fees for any additional contributions that may be made during the year. We have assumed that the \$5,000 contribution is made at the end of the year and that the value of the investment is constant. This example is therefore calculated using the \$50,000 balance only. Please note that this is just an example. In practice, actual investment balances will vary daily and the actual fees and costs charged are based on the value of the Fund, which also fluctuates daily.

EXAMPLE – Platinum Global Fund (Long Only) – C Class and E Class		Balance of \$50,000 with a contribution of \$5,000 during year
Contribution fees	Nil	For every additional \$5,000 you put in, you will be charged \$0
PLUS Management fees and costs	1.35% p.a.	And , for every \$50,000 you have in the Platinum Global Fund (Long Only) – C Class and E Class you will be charged or have deducted from your investment \$675 each year
PLUS Performance fees	Nil	And , you will be charged or have deducted from your investment \$0 in performance fees each year
PLUS Transaction costs	0.10% p.a.	And , you will be charged or have deducted from your investment \$50 in transaction costs
EQUALS Cost of Platinum Global Fund (Long Only) – C Class and E Class	1.45% p.a.	If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs in the range of \$725* . What it costs you will depend on the fees you negotiate.

* Additional fees may apply: A buy spread of 0.10%, equal to \$5.00 on a \$5,000 contribution will apply. If you leave the managed investment scheme, you will be charged a sell spread of 0.10%, equal to \$50.00 for every \$50,000 you withdraw. This amount excludes fees for any additional contributions that may be made during the year. We have assumed that the \$5,000 contribution is made at the end of the year and that the value of the investment is constant. This example is therefore calculated using the \$50,000 balance only. Please note that this is just an example. In practice, actual investment balances will vary daily and the actual fees and costs charged are based on the value of the Fund, which also fluctuates daily.

EXAMPLE – Platinum Asia Fund – C Class and E Class		Balance of \$50,000 with a contribution of \$5,000 during year
Contribution fees	Nil	For every additional \$5,000 you put in, you will be charged \$0
PLUS Management fees and costs	1.51% p.a.	And , for every \$50,000 you have in the Platinum Asia Fund – C Class and E Class you will be charged or have deducted from your investment \$755 each year
PLUS Performance fees	Nil	And , you will be charged or have deducted from your investment \$0 in performance fees each year
PLUS Transaction costs	0.08% p.a.	And , you will be charged or have deducted from your investment \$40 in transaction costs
EQUALS Cost of Platinum Asia Fund – C Class and E Class	1.59% p.a.	If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs in the range of \$795* . What it costs you will depend on the fees you negotiate.

* Additional fees may apply: A buy spread of 0.15%, equal to \$7.50 on a \$5,000 contribution will apply. If you leave the managed investment scheme, you will be charged a sell spread of 0.15%, equal to \$75.00 for every \$50,000 you withdraw. This amount excludes fees for any additional contributions that may be made during the year. We have assumed that the \$5,000 contribution is made at the end of the year and that the value of the investment is constant. This example is therefore calculated using the \$50,000 balance only. Please note that this is just an example. In practice, actual investment balances will vary daily and the actual fees and costs charged are based on the value of the Fund, which also fluctuates daily.

Fees and Other Costs continued

EXAMPLE – Platinum European Fund – C Class and E Class

		Balance of \$50,000 with a contribution of \$5,000 during year
Contribution fees	Nil	For every additional \$5,000 you put in, you will be charged \$0
PLUS Management fees and costs	1.49% p.a.	And , for every \$50,000 you have in the Platinum European Fund – C Class and E Class you will be charged or have deducted from your investment \$745 each year
PLUS Performance fees	Nil	And , you will be charged or have deducted from your investment \$0 in performance fees each year
PLUS Transaction costs	0.13% p.a.	And , you will be charged or have deducted from your investment \$65 in transaction costs
EQUALS Cost of Platinum European Fund – C Class and E Class	1.62% p.a.	If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs in the range of \$810* . What it costs you will depend on the fees you negotiate.

* Additional fees may apply: A buy spread of 0.20%, equal to \$10.00 on a \$5,000 contribution will apply. If you leave the managed investment scheme, you will be charged a sell spread of 0.20%, equal to \$100.00 for every \$50,000 you withdraw. This amount excludes fees for any additional contributions that may be made during the year. We have assumed that the \$5,000 contribution is made at the end of the year and that the value of the investment is constant. This example is therefore calculated using the \$50,000 balance only. Please note that this is just an example. In practice, actual investment balances will vary daily and the actual fees and costs charged are based on the value of the Fund, which also fluctuates daily.

EXAMPLE – Platinum Japan Fund – C Class and E Class

		Balance of \$50,000 with a contribution of \$5,000 during year
Contribution fees	Nil	For every additional \$5,000 you put in, you will be charged \$0
PLUS Management fees and costs	1.37% p.a.	And , for every \$50,000 you have in the Platinum Japan Fund – C Class and E Class you will be charged or have deducted from your investment \$685 each year
PLUS Performance fees	Nil	And , you will be charged or have deducted from your investment \$0 in performance fees each year
PLUS Transaction costs	0.13% p.a.	And , you will be charged or have deducted from your investment \$65 in transaction costs
EQUALS Cost of Platinum Japan Fund – C Class and E Class	1.50% p.a.	If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs in the range of \$750* . What it costs you will depend on the fees you negotiate.

* Additional fees may apply: A buy spread of 0.15%, equal to \$7.50 on a \$5,000 contribution will apply. If you leave the managed investment scheme, you will be charged a sell spread of 0.15%, equal to \$75.00 for every \$50,000 you withdraw. This amount excludes fees for any additional contributions that may be made during the year. We have assumed that the \$5,000 contribution is made at the end of the year and that the value of the investment is constant. This example is therefore calculated using the \$50,000 balance only. Please note that this is just an example. In practice, actual investment balances will vary daily and the actual fees and costs charged are based on the value of the Fund, which also fluctuates daily.

EXAMPLE – Platinum International Brands Fund – C Class and E Class

		Balance of \$50,000 with a contribution of \$5,000 during year
Contribution fees	Nil	For every additional \$5,000 you put in, you will be charged \$0
PLUS Management fees and costs	1.53% p.a.	And , for every \$50,000 you have in the Platinum International Brands Fund – C Class and E Class you will be charged or have deducted from your investment \$765 each year
PLUS Performance fees	Nil	And , you will be charged or have deducted from your investment \$0 in performance fees each year
PLUS Transaction costs	0.28% p.a.	And , you will be charged or have deducted from your investment \$140 in transaction costs
EQUALS Cost of Platinum International Brands Fund – C Class and E Class	1.81% p.a.	If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs in the range of \$905* . What it costs you will depend on the fees you negotiate.

* Additional fees may apply: A buy spread of 0.20%, equal to \$10.00 on a \$5,000 contribution will apply. If you leave the managed investment scheme, you will be charged a sell spread of 0.20%, equal to \$100.00 for every \$50,000 you withdraw. This amount excludes fees for any additional contributions that may be made during the year. We have assumed that the \$5,000 contribution is made at the end of the year and that the value of the investment is constant. This example is therefore calculated using the \$50,000 balance only. Please note that this is just an example. In practice, actual investment balances will vary daily and the actual fees and costs charged are based on the value of the Fund, which also fluctuates daily.

Fees and Other Costs *continued*

EXAMPLE – Platinum International Health Sciences Fund – C Class and E Class		Balance of \$50,000 with a contribution of \$5,000 during year
Contribution fees	Nil	For every additional \$5,000 you put in, you will be charged \$0
PLUS Management fees and costs	1.35% p.a.	And , for every \$50,000 you have in the Platinum International Health Sciences Fund – C Class and E Class you will be charged or have deducted from your investment \$675 each year
PLUS Performance fees	Nil	And , you will be charged or have deducted from your investment \$0 in performance fees each year
PLUS Transaction costs	0.11% p.a.	And , you will be charged or have deducted from your investment \$55 in transaction costs
EQUALS Cost of Platinum International Health Sciences Fund – C Class and E Class	1.46% p.a.	If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs in the range of \$730* . What it costs you will depend on the fees you negotiate.

* Additional fees may apply: A buy spread of 0.15%, equal to \$7.50 on a \$5,000 contribution will apply. If you leave the managed investment scheme, you will be charged a sell spread of 0.15%, equal to \$75.00 for every \$50,000 you withdraw. This amount excludes fees for any additional contributions that may be made during the year. We have assumed that the \$5,000 contribution is made at the end of the year and that the value of the investment is constant. This example is therefore calculated using the \$50,000 balance only. Please note that this is just an example. In practice, actual investment balances will vary daily and the actual fees and costs charged are based on the value of the Fund, which also fluctuates daily.

EXAMPLE – Platinum International Technology Fund – C Class and E Class		Balance of \$50,000 with a contribution of \$5,000 during year
Contribution fees	Nil	For every additional \$5,000 you put in, you will be charged \$0
PLUS Management fees and costs	1.36% p.a.	And , for every \$50,000 you have in the Platinum International Technology Fund – C Class and E Class you will be charged or have deducted from your investment \$680 each year
PLUS Performance fees	Nil	And , you will be charged or have deducted from your investment \$0 in performance fees each year
PLUS Transaction costs	0.11% p.a.	And , you will be charged or have deducted from your investment \$55 in transaction costs
EQUALS Cost of Platinum International Technology Fund – C Class and E Class	1.47% p.a.	If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs in the range of \$735* . What it costs you will depend on the fees you negotiate.

* Additional fees may apply: A buy spread of 0.10%, equal to \$5.00 on a \$5,000 contribution will apply. If you leave the managed investment scheme, you will be charged a sell spread of 0.10%, equal to \$50.00 for every \$50,000 you withdraw. This amount excludes fees for any additional contributions that may be made during the year. We have assumed that the \$5,000 contribution is made at the end of the year and that the value of the investment is constant. This example is therefore calculated using the \$50,000 balance only. Please note that this is just an example. In practice, actual investment balances will vary daily and the actual fees and costs charged are based on the value of the Fund, which also fluctuates daily.

P Class – Performance Fee Option

This table gives an example of how the ongoing annual fees and costs for a Fund can affect your investment over a 1-year period. You should use this table to compare this product with other products offered by managed investment schemes.

EXAMPLE – Platinum International Fund – P Class		Balance of \$50,000 with a contribution of \$5,000 during year
Contribution fees	Nil	For every additional \$5,000 you put in, you will be charged \$0
PLUS Management fees and costs	1.13% p.a.	And , for every \$50,000 you have in the Platinum International Fund – P Class you will be charged or have deducted from your investment \$565 each year
PLUS Performance fees	0.00% p.a.	And , you will be charged or have deducted from your investment \$0 in performance fees each year
PLUS Transaction costs	0.13% p.a.	And , you will be charged or have deducted from your investment \$65 in transaction costs
EQUALS Cost of Platinum International Fund – P Class	1.26% p.a.	If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs in the range of \$630* . What it costs you will depend on the fees you negotiate.

* Additional fees may apply: A buy spread of 0.15%, equal to \$7.50 on a \$5,000 contribution will apply. If you leave the managed investment scheme, you will be charged a sell spread of 0.15%, equal to \$75.00 for every \$50,000 you withdraw. This amount excludes fees for any additional contributions that may be made during the year. We have assumed that the \$5,000 contribution is made at the end of the year and that the value of the investment is constant. This example is therefore calculated using the \$50,000 balance only. Please note that this is just an example. In practice, actual investment balances will vary daily and the actual fees and costs charged are based on the value of the Fund, which also fluctuates daily.

Fees and Other Costs continued

EXAMPLE – Platinum Global Fund (Long Only)

– P Class

Balance of \$50,000 with a contribution of \$5,000 during year

Contribution fees	Nil	For every additional \$5,000 you put in, you will be charged \$0
PLUS Management fees and costs	1.10% p.a.	And , for every \$50,000 you have in the Platinum Global Fund (Long Only) – P Class you will be charged or have deducted from your investment \$550 each year
PLUS Performance fees	0.00% p.a.	And , you will be charged or have deducted from your investment \$0 in performance fees each year
PLUS Transaction costs	0.10% p.a.	And , you will be charged or have deducted from your investment \$50 in transaction costs
EQUALS Cost of Platinum Global Fund (Long Only) – P Class	1.20% p.a.	If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs in the range of \$600* . What it costs you will depend on the fees you negotiate.

* Additional fees may apply: A buy spread of 0.10%, equal to \$5.00 on a \$5,000 contribution will apply. If you leave the managed investment scheme, you will be charged a sell spread of 0.10%, equal to \$50.00 for every \$50,000 you withdraw. This amount excludes fees for any additional contributions that may be made during the year. We have assumed that the \$5,000 contribution is made at the end of the year and that the value of the investment is constant. This example is therefore calculated using the \$50,000 balance only. Please note that this is just an example. In practice, actual investment balances will vary daily and the actual fees and costs charged are based on the value of the Fund, which also fluctuates daily.

EXAMPLE – Platinum Asia Fund

– P Class

Balance of \$50,000 with a contribution of \$5,000 during year

Contribution fees	Nil	For every additional \$5,000 you put in, you will be charged \$0
PLUS Management fees and costs	1.26% p.a.	And , for every \$50,000 you have in the Platinum Asia Fund – P Class you will be charged or have deducted from your investment \$630 each year
PLUS Performance fees	0.22% p.a.	And , you will be charged or have deducted from your investment \$110 in performance fees each year
PLUS Transaction costs	0.08% p.a.	And , you will be charged or have deducted from your investment \$40 in transaction costs
EQUALS Cost of Platinum Asia Fund – P Class	1.56% p.a.	If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs in the range of \$780* . What it costs you will depend on the fees you negotiate.

* Additional fees may apply: A buy spread of 0.15%, equal to \$7.50 on a \$5,000 contribution will apply. If you leave the managed investment scheme, you will be charged a sell spread of 0.15%, equal to \$75.00 for every \$50,000 you withdraw. This amount excludes fees for any additional contributions that may be made during the year. We have assumed that the \$5,000 contribution is made at the end of the year and that the value of the investment is constant. This example is therefore calculated using the \$50,000 balance only. Please note that this is just an example. In practice, actual investment balances will vary daily and the actual fees and costs charged are based on the value of the Fund, which also fluctuates daily.

EXAMPLE – Platinum European Fund

– P Class

Balance of \$50,000 with a contribution of \$5,000 during year

Contribution fees	Nil	For every additional \$5,000 you put in, you will be charged \$0
PLUS Management fees and costs	1.24% p.a.	And , for every \$50,000 you have in the Platinum European Fund – P Class you will be charged or have deducted from your investment \$620 each year
PLUS Performance fees	0.00% p.a.	And , you will be charged or have deducted from your investment \$0 in performance fees each year

Additional Explanation of Fees and Costs

Ongoing annual fees and costs

The investment returns of a Fund will be impacted by the fees and costs incurred. The ongoing annual fees and costs of a Fund are comprised of the estimated management fees and costs; estimated investment performance fees (for P Class – Performance Fee Option only); and estimated transaction costs (net of the amount recovered through the Fund's buy/sell spread).

Estimated management fees and costs

The estimated management fees and costs for a Fund include an investment management fee and estimated indirect costs.

Investment management fee

For C Class and E Class – Standard Fee Option, Platinum is entitled to receive an investment management fee of 1.35% per annum of the Fund's NAV, calculated and accrued daily, and paid to Platinum monthly.

For P Class – Performance Fee Option, Platinum is entitled to receive an investment management fee of 1.10% per annum of the Fund's NAV, calculated and accrued daily, and paid to Platinum monthly.

The investment management fees are inclusive of Australian GST less any expected input tax credits and/or reduced input tax credits*.

Currently, Platinum does not separately recover expenses from the Funds. Expenses and outgoings which are incurred in connection with the operation of a Fund e.g. audit costs, custody, middle office and administration costs, the costs of legal and taxation advice, costs of annual financial statements, Investor reporting and distribution, marketing and other allowable expenses, are paid for by Platinum out of Platinum's investment management fee.

Estimated indirect costs

Each Fund may incur indirect costs through its investment trading activities in OTC derivatives (other than for hedging purposes) and exchange traded funds. Indirect costs are deducted from the assets of a Fund as and when incurred.

The difference between the estimated management fees and costs (in the fees and costs table on page 24 of this PDS) and the investment management fee for a Fund, represents the Fund's estimated indirect costs. Each Fund's indirect costs have been estimated by Platinum based on the relevant Fund's actual indirect costs incurred for the last financial year.

Investment performance fee

For the P Class – Performance Fee Option, in addition to the investment management fee, the Constitution of each Fund allows Platinum to receive an investment performance fee out of the assets of the relevant Fund.

The investment performance fee for a Fund is 15% (inclusive of GST less any expected input tax credits*) of the amount by which the Fund's return (after the deduction of investment management fees and excluding any accrued investment performance fees) exceeds the return of the Fund's nominated index (as set forth on page 32) ("**Excess Return**"), for the relevant period. The investment performance fee for the relevant period is calculated daily and reflected in the Fund's daily unit price. However, any underperformance of the Fund relative to its nominated index (including underperformance from any prior Calculation Period) must be recovered before an investment performance fee can be recognised in the Fund's unit price.** The investment performance fee (if any) is payable to Platinum semi-annually as at 30 June and 31 December ("**Calculation Period**"). At the end of a Calculation Period, the Fund's return and the return of the Fund's nominated index are reset to zero for the start of the next Calculation Period.

What happens when units are issued during a Calculation Period?

If units in a Fund are issued to an Investor using an entry price calculated for a Business Day, this entry price will include any investment performance fee that has already been accrued during that Calculation Period but prior to the issue of those units. In order to neutralise the effect of the accrued investment performance fee on those units, Platinum will adjust the value of the Fund upwards on the next Business Day by the amount of such accrued investment performance fee applicable to those units.

Fees and Other Costs *continued*

This means that the value of those units will not be adversely affected by any investment performance fee that has already been accrued by the Fund as a result of any outperformance generated by the Fund prior to the issue of those units.

What happens when units are withdrawn during a Calculation Period?

If an Investor withdraws units from a Fund using an exit price calculated for a Business Day and there is an investment performance fee accrual reflected in the exit price for those units, that investment performance fee will crystallise and will become payable to Platinum from the Fund's assets at the end of the Calculation Period ("**Crystallised Performance Fee**").

* In order to calculate the GST inclusive investment management fee and investment performance fee, GST is added to the relevant fee and then adjusted for any expected input tax credits and/or reduced input tax credits.

** The exception being any Crystallised Performance Fee already accrued as a result of withdrawals.

Estimated investment performance fees disclosed in the fees and costs table on page 24

The estimated investment performance fees for the P Class – Performance Fee Option of a Fund as set forth in the fees and costs table on page 24 have been calculated based on the performance fees charged to P Class units of the Fund, averaged over the last five years up to and including 30 June 2024. These estimates are inclusive of GST less any expected reduced input tax credits. That said, the actual investment performance fee payable for a Fund (if any) will depend on the performance of the Fund over the relevant period and therefore can vary greatly from year to year. By way of example, applying the P Class – Performance Fee Option fee structure retrospectively to the average historical investment performance for each Fund since each Fund's inception to 30 June 2024, the highest investment performance fee payable by a Fund for any one year would have been 14.81% per annum and the lowest investment performance fee payable by a Fund for any one year would have been 0% per annum. However, given that under each Fund's Constitution, Platinum's maximum aggregate fees and charges may not exceed 7% per annum, the maximum performance fee payable would have been capped at 5.9% per annum, assuming an investment management fee of 1.10% per annum.

Nominated indices

The nominated indices for the Funds are set forth below:

Fund	Nominated index
Platinum International Fund	MSCI All Country World Net Index in \$A
Platinum Global Fund (Long Only)	MSCI All Country World Net Index in \$A
Platinum Asia Fund	MSCI All Country Asia ex Japan Net Index in \$A
Platinum European Fund	MSCI All Country Europe Net Index in \$A
Platinum Japan Fund	MSCI Japan Net Index in \$A
Platinum International Brands Fund	MSCI All Country World Net Index in \$A
Platinum International Health Sciences Fund	MSCI All Country World Health Care Net Index in \$A
Platinum International Technology Fund	MSCI All Country World Information Technology Net Index in \$A

Worked example

The following table provides three examples of the annual investment performance fee payable for three different levels of Fund and nominated index returns. Fund returns are after investment management fees and excluding any accrued investment performance fees. Each example assumes an investment of \$50,000 and that no underperformance is carried forward from a prior Calculation Period.

Fund's return	Hurdle return	Excess Return	Calculation of investment performance fee	\$ investment performance fee attributed to an investment of \$50,000 / (c/f underperformance)
15%	10%	5%	$15\% \times 5\% \times \$50,000$	\$375
5%	10%	(5%)	$15\% \times (5\%) \times \$50,000$	(\$375*)
(5%)	(10%)	5%	$15\% \times 5\% \times \$50,000$	\$375

* Underperformance carried forward to the next calculation period.

Fees and Other Costs continued

Gross transaction costs

In accordance with the Corporations Regulations 2001, we have provided an estimate of the gross transaction costs based on actual amounts incurred in the last financial year for each Fund.

Fund	Gross transaction costs (% p.a. of NAV)	Recovery through buy/sell spread (% p.a. of NAV)	Net transaction costs (% p.a. of NAV)
Platinum International Fund	0.18%	-0.05%	0.13%
Platinum Global Fund (Long Only)	0.12%	-0.02%	0.10%
Platinum Asia Fund	0.12%	-0.04%	0.08%
Platinum European Fund	0.20%	-0.07%	0.13%
Platinum Japan Fund	0.23%	-0.10%	0.13%
Platinum International Brands Fund	0.35%	-0.07%	0.28%
Platinum International Health Sciences Fund	0.16%	-0.05%	0.11%
Platinum International Technology Fund	0.15%	-0.04%	0.11%

Transaction costs such as brokerage (including research), transactional taxes and settlement costs are incurred when a Fund acquires or disposes of assets. The amount of these costs will vary from year to year depending on the volume and value of trades undertaken.

The gross transaction costs of a Fund reflect Platinum's reasonable estimates of the typical ongoing amounts for the current financial year, based on the actual amounts incurred by the Fund for the last financial year.

The net transaction costs of a Fund represent the gross transaction costs for the Fund less the total amount recovered through the Fund's buy/sell spread charged to applicants and withdrawing Investors. The transaction costs shown in the fees and costs table on page 25 are the net transaction costs.

Transaction costs are an additional cost to Investors to the extent that they are not recovered through a Fund's buy/sell spread.

Buy/sell spreads

A portion of the total transaction costs are recovered from Investors entering or exiting a Fund. Buy spreads are charged to enter a Fund (buy units) and sell spreads are charged to exit a Fund (sell units). They are charged because entering or exiting a Fund necessitates the buying or selling of a Fund's investments, which means a Fund will incur transaction costs. The buy/sell spreads for a Fund are based on our estimate of the transaction costs incurred by the Fund to invest application money received or sell assets to fund withdrawal payments.*

The current buy/sell spreads for each Fund are available on Platinum's website at:

www.platinum.com.au/managed-funds/pihfs

www.platinum.com.au/managed-funds/pitf

From time to time, we may vary the buy/sell spread and we will not ordinarily provide prior notice. Any changes to a Fund's buy/sell spread will be updated on Platinum's website at the links provided above.

The buy/sell spread aims to ensure that non-transacting Investors do not pay the transaction costs associated with an applicant entering or an Investor exiting a Fund. The buy/sell spreads are not fees paid to Platinum – they are retained by the Funds to cover transaction costs as they are incurred.

The buy spreads are built into a Fund's entry unit price and the sell spreads are built into a Fund's exit unit price. A Fund's buy/sell spread is deducted from the application amount received from, or the withdrawal amount to be paid to, applicants and withdrawing Investors, respectively, at the time of the relevant application or withdrawal into or out of the Fund.

* Our discretion in determining the buy/sell spread is carried out in accordance with documented policies – copies of which are available from us at no charge. Platinum may exercise its discretion to waive the buy/sell spread in certain circumstances.

Fees permitted under the Funds' Constitutions

The Constitutions of the Funds allow for higher fees to be charged than those detailed on pages 24 to 33, and specify the circumstances in which additional fees may be charged, such as:

- a maximum contribution fee of 10% of an Investor's application amount. Currently, we do not charge a contribution fee;
- an application facility fee to be deducted from an Investor's application money. Currently, we do not charge an application facility fee;
- a withdrawal facility fee to be charged to Investors who use a withdrawal facility. Currently, we do not charge a withdrawal facility fee;
- a maximum trustee fee of 0.10% per annum of a Fund's NAV. Currently, we do not charge a trustee fee;
- a maximum trustee termination fee of 2.00% of a Fund's NAV on the termination of a Fund or the removal of Platinum as Responsible Entity of a Fund;
- a maximum investment management fee (excluding ongoing recoverable operating expenses) of up to 2.00% per annum of a Fund's NAV.

The Constitutions also provide that the maximum aggregate fee charged by Platinum, may not exceed 7.00% per annum, of a Fund's NAV.

Changes to fees

We have the right to increase the fees or to charge fees not currently levied, or charge fees more regularly, up to the maximum limits set forth in a Fund's Constitution. If we choose to exercise this right, we will provide you with at least 30 days prior notice.

Miscellaneous fees

Any charges to Platinum by your financial institution may be deducted from your application monies, account balance or investment proceeds (as appropriate). This includes:

- cheque or direct debit dishonour fees;
- electronic transfer fees (where your application monies are returned, for example we did not receive an Application Form or additional investment instruction, or we make an international funds transfer on your behalf);
- bank-tracing fees (where you don't advise us of your direct deposit or EFT to the Funds' bank account); and
- B_{PAY}[®] fees (where your application monies are returned, for example we did not receive an Application Form or additional investment instruction).

Each of the above fees should be no more than \$50.00.

[®] Registered to B_{PAY} Pty Ltd ABN 69 079 137 518

Differential fees

In accordance with the *ASIC Corporations (Registered Schemes and CCIVs – Differential Fees) Instrument 2017/40*, Platinum may, in its discretion and in accordance with applicable law and ASIC policy, negotiate and agree a lower investment management fee or a rebate or a waiver of part of its investment management fee for a wholesale client within the meaning of section 761G of the Corporations Act. Some Funds may have a separate class of units to facilitate the negotiation of the investment management fee amount and means of payment by relevant investors.

Financial adviser fees

You may agree to pay your financial adviser a fee for any financial advice that they provide to you.

Fees for indirect investors

For investors who access a Fund through an Investor Directed Portfolio Service ("IDPS"), IDPS-like scheme or a nominee or custody service (collectively referred to as "master trusts" or "wrap accounts"), additional fees and costs may apply. These fees and costs are stated in the offer document provided by your master trust or wrap account operator. These fees are not paid to Platinum.

Additional payments made by Platinum

We may make product access payments (flat dollar amounts) to the operators of master trusts and wrap accounts who distribute our Funds on their investment menu. We may also provide certain payments or other non-monetary benefits to dealer groups and other financial services licensees to the extent it is permitted under law. All payments and non-monetary benefits referred to herein are funded by Platinum out of our own resources, and are not an additional cost to you.

Soft dollar arrangements

We may, in accordance with applicable laws, receive goods and services (such as third party research) from brokers where such goods and services assist us in managing the Funds.

Investing in the Funds

Initial investment

The minimum initial investment in a Fund / Unit Class is **A\$10,000 or NZ\$10,000**. To apply:

- go online at www.platinum.com.au and follow the instructions to complete the Platinum Trust Funds' Application Form; or
- complete the Application Form included at the back of this PDS. Section 1.2 of the Application Form details the sections that you must complete depending on your investor type. Once completed, sign the Application Form and send* to Platinum.

* You may fax or email to us, or otherwise upload via the Platinum secure client website, your completed Application Form and if required certified identification documentation. Although, if you use fax or email for this purpose we ask that you phone us to verify receipt – refer to 'Facsimile, email and internet – terms and conditions' on page 45. Otherwise, you will need to mail or deliver the original completed Application Form and (if required) certified identification documentation, to Platinum.

E Class is closed to new investors. E Class is only open to existing E Class Investors for the reinvestment of distributions.

If you use our online Application Form to make your investment and do not upload a specimen signature at the time of your application, Platinum may later decline to accept any subsequent withdrawal request on your account if Platinum is not satisfied as to the authenticity of the signature(s) on the withdrawal request.

Additional investments

An additional application may be made at any time. There is no minimum additional investment amount.[#] To apply:

- go online at www.platinum.com.au and follow the instructions to complete the Platinum Trust Funds' Additional Investment Form; or
- write to us – please state your investment account number and name, the Fund, Unit Class and amount you wish to invest, and how your monies will be transferred to Platinum. If you choose to write to us, we may require the completion of a Product Suitability Form; or
- complete an Additional Investment Form (available from Platinum's website or Investor Services). Once completed, send* to Platinum.

* You may fax or email to us or otherwise upload via the Platinum secure client website, your written instruction or Additional Investment Form, although if you use fax or email for this purpose we ask that you phone us to verify receipt – refer to 'Facsimile, email and internet – terms and conditions' on page 45.

[#] Please note: if you are making an additional investment to a Fund / Unit Class in which you are not currently invested, the minimum initial investment amount applies.

Regular Investment Plan

The Regular Investment Plan enables you to regularly add to your existing investments on a monthly or quarterly basis. The minimum initial investment in a Fund / Unit Class under the Regular Investment Plan is A\$5,000 or NZ\$5,000, with a minimum investment of A\$200 or NZ\$200 per Fund / Unit Class per month or quarter.

Your specified amount will be deducted from your participating financial institution account on the 19th of each month (or on the 19th of a particular month for a quarterly plan). Where the 19th falls on a non-Business Day, money will be debited from your account on the next Business Day.

The entry price that will apply to an investment made under a Regular Investment Plan will be based on when we receive your money from your financial institution. For example, a debit made after 3:00pm AEST on a Business Day should generally cause your funds to be invested with the entry price calculated for the next Business Day.

We will notify you when your Regular Investment Plan has been set-up (including the commencement date of the first debit from your financial institution account).

If you make a full switch (i.e. from one Fund / Unit Class to another Fund / Unit Class), we will transfer and apply your Regular Investment Plan to the new Fund / Unit Class (i.e. the one you switch to).

To initiate this service, complete the relevant section of the Application Form (if a new investment is being made), or the Regular Investment Plan Form. If you select a New Zealand financial institution account for the service, then you must (instead) complete the New Zealand Specific Direct Debit Authority Form. Forms are available from Platinum's website or Investor Services.

For Investors who select an Australian financial institution account for this service, the terms and conditions of the Direct Debit Service Agreement on page 50 will apply. For Investors who select a New Zealand financial institution account for this service, the terms and conditions on the New Zealand Specific Direct Debit Authority Form will apply.

We reserve the right to cancel your direct debit arrangement if two or more consecutive debits are returned unpaid by your nominated financial institution. Standard government fees, duties and bank charges (including dishonour fees and conversion costs) may apply to investments. These are paid by you.

Transferring your application monies to Platinum

By direct debit

You can authorise Platinum to debit investment amounts directly from your nominated Australian financial institution account by completing the relevant section of the Application Form or Additional Investment Form.

Investors who select this option and provide authorisation agree to the terms and conditions of the Direct Debit Service Agreement on page 50. We are only able to offer this facility in A\$.

For applications made under the direct debit arrangement we will endeavour to debit your nominated financial institution account on the day your completed application is received and processed by us or your earliest debit date if specified on the Application Form (if this date is later), provided that your application meets our processing requirements.

The entry price that will apply to an investment made under the direct debit arrangement will be based on when we receive your money from your financial institution. For example, a debit made after 3:00pm AEST on a Business Day should generally cause your funds to be invested with the entry price calculated for the next Business Day.

Investing in the Funds *continued*

By cheque

Drawn in **A\$ only**, and made payable to '**Platinum Trust**'.

By EFT or direct deposit

In A\$ paid to the Funds' Australian bank account, or NZ\$ paid to the Funds' New Zealand bank account. Details:

	AUSTRALIA	NEW ZEALAND*
Account name:	Platinum Trust	Platinum Trust
Bank:	National Australia Bank	Bank of New Zealand
SWIFT:	NATAAU3302S	–
BSB:	082 057	–
Account number:	47598 3952	02 0500 0741112 001

Please ensure that you:

- ask your financial institution to **record the Investor's name** as a narrative on the EFT instruction (or if direct deposit, ask the Funds' bank to add the Investor's name as a reference against the deposit)*; and
- notify Investor Services** of the details of your EFT or direct deposit as soon as possible so that we can proceed to identify your money (and if deposited to the New Zealand bank account, so that we can instruct to transfer your money to the Funds' Australian bank account).

* EFT and direct deposits to the Funds' **New Zealand bank account** require transfer to the Funds' Australian bank account before the processing of your application can occur – refer to 'Identifying your application monies' on page 37. We will only instruct to transfer your monies once your application meets our processing requirements (e.g. completeness). The Bank of New Zealand will transfer your monies using an exchange rate it determines (at the time of processing) to be market rate.

Failure to do this may delay the identification of your monies and processing of your application – refer to page 37.

By BPAY

You can make additional investments (not initial investments) using BPAY.

Contact your participating **Australian** financial institution* to establish this service. You will need to quote **Platinum's Biller Code 252643** and your **Platinum BPAY Reference Number** (refer to your last transaction confirmation or statement). Your Platinum BPAY Reference Number is required so that we can identify your application monies.

Please notify Investor Services in writing of your BPAY deposit (including which of the Funds / Unit Classes the monies are to be applied to). BPAY instructions submitted prior to 6:00pm AEST on a Business Day should generally meet the 3:00pm AEST cut-off on the next Business Day, provided that you give us notice of your BPAY deposit before that time.

* BPAY is not currently available for New Zealand financial institutions.

If your total investment amount is funded by a number of part payments, Platinum will not process the application until the total investment amount is received and identified (unless otherwise specified in writing).

Processing of your Application for Investment

Applying for Units

Your Application Form (or Additional Investment Form or written request if an additional investment)* and application monies must be received and identified (and accepted by us)* by **3:00pm AEST on a Business Day** to be processed with the entry price calculated for that Business Day. Applications received and identified (and accepted by us) after **3:00pm AEST on a Business Day** (but by the next cut-off time) will generally be processed using the entry price calculated for the next Business Day. Unit prices of a Fund for a Business Day are usually calculated on the next Business Day.

For example:

- An application accepted by us at 10:00am AEST on a Tuesday (which is a Business Day) should generally be processed with the entry price calculated on Wednesday using closing prices of global equity markets on Tuesday.

- An application accepted by us at 4:00pm AEST on a Tuesday (which is a Business Day) i.e. after the cut-off for Tuesday, should generally be processed with the entry price calculated on Thursday using closing prices of global equity markets on Wednesday.

The transaction date which will appear on your confirmation will be the acceptance date of your application.

Applications received by us on a non-Business Day, will be treated as being received on the next Business Day.

* The Application Form or Additional Investment Form must be correctly completed. A written request must contain sufficient information to enable our processing.

Platinum has absolute discretion under the Funds' Constitutions to accept or refuse any application (for whatever reason and whether in whole or part). Once accepted by Platinum, applications are irrevocable subject to 'Cooling-off' – refer to page 46.

Identifying your application monies

Your application will not be processed until your monies are identified by us in the Funds' **Australian** bank account.

Please be aware that your instruction to a financial institution to transfer your money to the Funds' Australian or New Zealand bank account does not occur instantly. There are inherent limitations in banking systems, which can delay the receipt and identification of your application monies.*

Platinum does not accept responsibility for deposits it does not know about or which appear later in the Funds' bank account with an earlier deposit date and/or time. To assist in the identification of your monies, we ask that you instruct your financial institution to enter your name as a narrative on the transaction (where possible).

We generally download a statement from the **Funds' Australian bank** at 3:00pm AEST on each Business Day and if your money has not been received and identified by our bank or us, then we cannot process your application.

We generally download a statement from the **Funds' New Zealand bank** at 9:00am AEST on each Business Day. If, by this time, your money has not been received by our bank (and identified by reference to a complete investment instruction), then your money will not be transferred to the Funds' Australian bank account in time to make the cut-off time for that day.

* For example:

- EFT instructions can take 24-48 hours to be communicated between financial institutions.
- A deposit to the Funds' bank account may be batched for processing (by the bank) later in the day.
- If you direct another person (entity, fund or agent) to transfer your money to the Funds' bank account, the money may be identified as that person's money rather than yours. We may have to place a trace on monies to identify you and this can take up to ten or more Business Days.
- A direct deposit to the Funds' bank account that does not have your name as the reference may not be identified by the bank.

Rejections and dishonours

Any money received by EFT, bank deposit, or BPay that cannot be identified by Platinum will be returned to the relevant paying financial institution. If a cheque, EFT or direct debit is dishonoured, any units issued will be cancelled. A dishonoured cheque or regular investment plan or direct debit will not be re-presented or re-processed.

Incomplete or rejected applications

Under each Fund's Constitution, Platinum can accept or reject any application for units in its sole discretion. To ensure that your initial application is processed efficiently, you need to complete all relevant sections of the Application Form and provide all required customer identity verification documents as outlined in the Application Form.

If your application is incomplete, and we are not able to proceed with your request, we may hold your application monies in an interest bearing trust account until we receive the required information. All interest earned will be retained by the Fund. Monies will be held for a maximum period of 30 days commencing on the day we receive the monies. After this period your funds will be returned. If your application is subsequently completed to our satisfaction prior to the expiration of the 30 day period and:

- by 3:00pm AEST on a Business Day, the monies held will generally be used to apply for units using the entry price calculated for that Business Day;
- after 3:00pm AEST on a Business Day, the monies held will generally be used to apply for units using the entry price calculated for the next Business Day.

Issuing units

The number of units issued to you is determined by dividing your application monies by the applicable entry unit price.

Unit prices for the Funds are posted on Platinum's website.

Unit pricing

All unit prices are calculated by the fund administrator, Northern Trust and verified by Platinum. The Funds are forward priced. This means that when you invest you will not know the entry price that you will receive (as it will not yet have been calculated and will be determined after your application has been accepted).

In normal market conditions, Fund valuation and unit pricing is carried out on each Business Day. The NAV and unit prices of a Fund for a Business Day are usually calculated on the next Business Day.

The Fund's NAV divided by its units on issue provides the NAV unit price. Adding buy costs to this price determines the entry unit price and deducting sell costs from the NAV unit price determines the exit unit price – refer further to buy/sell spread on page 33.

Transacting on your Investment Account

Switching

You may request to switch (all or part of) your investment between Funds / Unit Class(es) at any time. The minimum initial investment of A\$10,000 applies if you are switching to a Fund / Unit Class in which you are currently not invested. A minimum balance of A\$10,000 is required to keep your investment in a Fund / Unit Class open. Under the Regular Investment Plan, the minimum initial investment of A\$5,000 applies if you are switching to a Fund / Unit Class in which you are currently not invested. A minimum balance of A\$5,000 is required to keep your investment in a Fund / Unit Class under the Regular Investment Plan open.

To request a switch:

- write to us – please state your investment account number and name, and the Funds / Unit Class(es) (to and from), and the amount(s) you wish to switch; or
- complete a Switch Form (available from Platinum's website or Investor Services).

The written instruction or Switch Form must be signed by an authorised signatory (or signatories where more than one is required) to the account.

You may fax or email to us or otherwise upload via the Platinum secure client website, your signed written instruction or Switch Form, although if you use fax or email for this purpose we ask that you phone us to verify receipt – refer to 'Facsimile, email and internet – terms and conditions' on page 45.

A switch is processed by us as a withdrawal and an additional investment. The Funds' buy/sell spread does apply when switching between Funds. The Funds' buy/sell spread does not apply when switching between Unit Classes of the same Fund.

Switching between Funds / Unit Class(es) may give rise to tax consequences and it is recommended that you check the tax implications with your tax adviser before switching.

Transfers

Investors may not transfer (or agree to transfer) any units in a Fund / Unit Class to another person (entity) without Platinum's prior consent.

To apply, send to us a completed standard transfer form (available from Platinum's website or Investor Services).

Please ensure that you advise us of the transferee's investment account number and name (or if the transferee is not a current Investor, provide us with an Application Form completed by the transferee) – refer to 'Initial investment' on page 35.

A transfer is processed by us at the NAV unit price, which means no buy/sell spread is applied.

Transferring units may give rise to tax consequences and it is recommended that you check the tax implications with your tax adviser before transferring.

Fully exiting the Funds closes the account.

Withdrawals

You may request a withdrawal of (all or part of) your investment at any time. The minimum withdrawal amount is **A\$10,000** per Fund / Unit Class or the entire investment balance in the Fund / Unit Class if the withdrawal would cause your investment in the Fund / Unit Class to fall below A\$10,000. Under the Regular Investment Plan, the minimum withdrawal amount is **A\$10,000** per Fund / Unit Class or the entire investment balance in the Fund / Unit Class if the withdrawal would cause your investment in the Fund / Unit Class to fall below A\$5,000.

To request a withdrawal:

- write to us – please state your investment account number and name, the Fund / Unit Class and amount(s) you wish to withdraw, and how the proceeds are to be paid to you; or
- complete a Withdrawal Form (available from Platinum's website or Investor Services).

The written request or Withdrawal Form must be signed by an authorised signatory (or signatories where more than one is required) to the account.

If you used our online Application Form to make your investment and did not upload a specimen signature(s) at the time of your application, Platinum may decline to accept your withdrawal request if Platinum is not satisfied as to the authenticity of the signature(s) on the withdrawal request.

If you require us to pay proceeds to a new financial institution account (i.e. not one previously elected for your investment account), we require your original signed written instruction or Withdrawal Form advising us of the new financial institution account.

If proceeds are to be paid by cheque or to your previously nominated financial institution account, you may fax or email to us or otherwise upload via the Platinum secure client website, your signed written instruction or Withdrawal Form, although if you use fax or email for this purpose we ask that you phone us to verify receipt – refer to 'Facsimile, email and internet – terms and conditions' on page 45.

Your withdrawal request must be received (and accepted by us)* by **3:00pm AEST on a Business Day** to be processed with the exit price calculated for that Business Day. Withdrawal requests received (and accepted by us)* after **3:00pm AEST on a Business Day** (but by the next processing cut-off time) will generally be processed using the exit price calculated for the next Business Day. Unit prices of a Fund for a Business Day are usually calculated on the next Business Day.

For example:

- A withdrawal request accepted by us at 10:00am AEST on a Tuesday (which is a Business Day) should generally be processed with the exit price calculated on Wednesday using closing prices of global equity markets on Tuesday.
- A withdrawal request accepted by us at 4:00pm AEST on a Tuesday (which is a Business Day) i.e. after the cut-off for Tuesday, should generally be processed with the exit price calculated on Thursday using closing prices of global equity markets on Wednesday.

Transacting on your Investment Account *continued*

The transaction date which will appear on your confirmation will be the acceptance date of your withdrawal request;

Withdrawal requests received by us on a non-Business Day will be treated as being received on the next Business Day.

Withdrawal proceeds can be paid:

- by cheque, made payable to the Investor, in Australian dollars; or
- EFT to the Investor's nominated Australian or New Zealand[#] financial institution account.

The proceeds of your withdrawal are normally available within one week of Platinum accepting your withdrawal request. In certain situations, which impact on the effective and efficient operation of a market for an asset or assets of a Fund, we may choose to suspend the processing of all applications and withdrawals for a Fund.

Fully exiting the Funds closes the account.

^{*} To be accepted your withdrawal request must contain sufficient information to enable our processing, and be appropriately signed. The Fund must also be liquid – refer to 'Withdrawals – Significant risk factors / limitations' on page 14. Platinum will not be responsible for any postal or service delivery delay or failure.

[#] The conversion of your Australian investment to New Zealand dollars will be processed by the Funds' bank.

Minimum amounts

Platinum reserves the right to waive any minimum investment or withdrawal amount at its sole discretion.

Distributions

The Funds may earn income (such as dividends and interest) and may also realise capital gains or losses on the sale of investments. Income and net realised capital gains will be distributed to Investors annually as at **30 June**. Platinum may also make interim distributions.

The attributed tax components will vary from Fund to Fund and from year to year (you will need to refer to your AMIT member annual ("**AMMA**") statement). There may also be times when no trust components are attributed. The AMMA statement will advise you of the non-assessable amounts (if any) of the distribution; that is, the amounts that have been distributed to you but have not been included in assessable income.

Distributions are calculated in dollars per unit on the number of units held as at the end of the distribution date (i.e. your distribution entitlement from a Fund is not pro-rated for the duration of your investment in a Fund during the tax year). Be aware that when such a distribution is made, the unit price will fully reflect the distribution. Investors should generally receive their entitlement (if payable) within 15 Business Days after the distribution date.

You can make the following distribution elections:

- have your distribution entitlement **reinvested** in additional units in the same Fund / Unit Class;
- have your distribution entitlement **paid** to your nominated financial institutional account^{*}; or
- select our **fixed cash distribution option, currently set at 4%** per annum** – refer to page 39 for full details.

If no election is made, your distribution entitlement will be automatically reinvested. No buy spread will apply to reinvestment.

If your financial institution rejects payment, your monies will be processed by us as an additional investment to the applicable Fund(s).[#]

To change your election:

- update via the Platinum secure client website – provided that you have the relevant user access, you are able to update your distribution election on a per Fund basis; or
- write to us – stating your investment account number and name, and your distribution election; or
- complete a Change of Details Form (available from Platinum's website or Investor Services).

Please note that a distribution election which is made in writing or via a Change of Details Form applies across all Funds in which you hold investments.

The written instruction or Change of Details Form must be signed by an authorised signatory (or signatories where more than one is required) to the account.

You may fax or email to us or otherwise upload via the Platinum secure client website, your signed written instruction or Change of Details Form, although if you use fax or email for this purpose we ask that you phone us to verify receipt – refer to 'Facsimile, email and internet – terms and conditions' on page 45. However, please note that if you require us to pay distribution proceeds to a new financial institution account (i.e. not one previously elected for your investment account), we require your original signed written instruction or Change of Details Form advising us of the new financial institution account.

For a change to be reflected in the next distribution, your revised distribution election must generally be received by us no later than five Business Days before 30 June.

The last day that a transaction can be received for processing (so as to be included for the 30 June distribution) is 30 June.[^] Note that the processing cut-off time on that day is 3:00pm AEST.

^{*} For payments to a New Zealand financial institution account, your Australian distribution entitlement will be converted to New Zealand dollars prior to payment. This will be processed by the Funds' bank.

^{**}Platinum has the discretion to amend the fixed cash distribution rate at any time up until 30 days prior to the relevant distribution date. Any changes to the fixed cash distribution rate for a Fund will be updated on Platinum's website at www.platinum.com.au/fixedcashdistribution

[#] The entry price applied will depend on the day we process your reinvestment, which should be no later than 20 Business Days after 30 June. If the rejection is from a New Zealand financial institution, then an exchange rate (to convert your NZ\$ distribution amount back to A\$) will be applied prior to reinvestment.

[^] If 30 June falls on a non-Business Day, then it will be the last Business Day prior to 30 June.

Additional terms and conditions applicable to the fixed cash distribution option

You may rely on the annual distribution as a way to supplement your income. However, because distributions are made up of dividends, interest, and realised capital gains or losses on the sale of a Fund's investments, the amount of a Fund's distribution in any financial year can be unpredictable. As such, the fixed cash distribution option has been designed to provide investors with access to more certain cash flow outcomes.

Platinum has currently set the fixed cash distribution rate at 4% for each Fund, but this rate may be adjusted to such higher or lower rate as Platinum may determine. Platinum has the discretion to amend the fixed cash distribution rate for a Fund at any time up until 30 days prior to the relevant distribution date. Any changes to the fixed cash distribution rate for a Fund will be updated by Platinum on the Platinum website at www.platinum.com.au/fixedcashdistribution

If you choose the fixed cash distribution option for a Fund, how will it work?

At 30 June ("distribution date"), the current fixed cash distribution rate will be applied to the number of units held by you in the Fund as at the distribution date, multiplied by the ex-distribution unit price for the Fund as at 30 June of the prior financial year, to derive the fixed cash distribution amount for the distribution date. This fixed cash distribution amount is then compared to your actual distribution entitlement amount as at the distribution date in respect of the Fund:

- if your actual distribution entitlement amount is greater than your fixed cash distribution amount, the fixed cash distribution amount will be paid to your nominated financial institutional account within 15 Business Days of the distribution date and your excess distribution entitlement amount will be reinvested in additional units in the same Fund / Unit Class. By selecting the fixed cash distribution option for the Fund you are providing us with a standing instruction to make any such reinvestment on your behalf and any such reinvestment will be deemed to be received and accepted by us, by 3:00pm AEST on 30 June (or if 30 June is not a Business Day, by 3:00pm AEST on the last Business Day prior to 30 June) for the purposes of processing any such reinvestment, and your reinvestment will receive the ex-distribution unit price of the Fund as at 30 June of the relevant financial year. Such units will not be entitled to the relevant distribution for the period prior to 30 June of the relevant financial year. No buy spread will apply to your reinvestment;
- if your actual distribution entitlement amount is less than your fixed cash distribution amount, we will process a withdrawal of units from the Fund / Unit Class to cover the shortfall. The fixed cash distribution amount (comprised of your distribution entitlement amount (if any) and the proceeds of the withdrawal) will be paid to your nominated financial institutional account, within 15 Business Days after the distribution date. By selecting the fixed cash distribution option for the Fund you are providing us with a standing instruction to establish this withdrawal request facility on your behalf and any such withdrawal request will be deemed to be made by you and received and accepted by us, by 3:00pm AEST on 30 June (or if 30 June is not a Business Day, by 3:00pm AEST on the last Business Day prior to 30 June), and your withdrawal request will receive the ex-distribution unit price of the Fund as at 30 June of the relevant financial year. Such units will be entitled to the relevant distribution for the period prior to 30 June of the relevant financial year. A sell spread will apply to your withdrawal.

Your financial institution account

You can elect to have your withdrawal proceeds and distribution entitlements paid to an **Australian resident or New Zealand resident bank, building society or credit union account**.

The account nominated by you must be in the name of the Investor, as it is our policy not to make third party payments.

Changing your details

To amend your details (such as your address, contact details, nominated financial adviser or administrator, or nominated financial institution account):

- update via the Platinum secure client website – provided that you have the relevant user access, you are able to update your details (with the exception of new financial institution accounts); or
- write to us – stating your investment account number and name, and the details of the change; or
- complete a Change of Details Form (available from Platinum's website or Investor Services).

The written instruction or Change of Details Form must be signed by an authorised signatory (or signatories where more than one is required) to the account.

You may fax or email to us or otherwise upload via the Platinum secure client website, your signed written instruction or Change of Details Form, although if you use fax or email for this purpose we ask that you phone us to verify receipt – refer to 'Facsimile, email and internet – terms and conditions' on page 45. We require your original signed written instruction or Change of Details Form if you are advising us of a new financial institution account.

One investment account number is issued covering all your investments in the Funds. Therefore, a change to your account details will apply to all Funds in which you hold units.

Who else can operate your investment account?

If you wish to appoint a person (or entity) as your authorised representative (agent or attorney):

- complete the Operating Authority Form (available from Platinum's website or Investor Services); or
- provide us with a valid power of attorney document. We also require the attorney to validate their authority by providing a non-revocation statement (for subsequent instructions).*

Please be careful in making such an appointment. Your authorised representative (agent or attorney) will be empowered to act on your behalf in all matters relating to your investment in the Funds (including making a request to withdraw or transfer part or all of your investment and change your account details).

An Investor who appoints an authorised representative (agent or attorney) will be bound by the 'Appointment of an authorised representative (agent or attorney) – terms and conditions' outlined on page 46.

* 'non-revocation statement' – a signed letter (from the attorney) that states: "I [name] of [address] (the Attorney) am acting under a power of attorney granted to me by [name of Investor] (the Investor) and have no knowledge of revocation or suspension of that power by the Investor or the death or mental incapacity of the Investor."

Information about your Investment

Platinum's website

General and updated information about the Funds is available from our website – www.platinum.com.au

This includes Fund unit prices, performance, distribution history and monthly updates (detailing Fund size, exposures and top holdings). Other information includes: changes to key service providers (if any); material changes in a Fund's risk profile (if any) and other monthly and annual updates as listed on page 15; the current PDS (including any supplementary material) and the Funds' annual financial reports.

The website has a comprehensive section relating to topical updates and interesting articles from the investment team.

Online access to your investment account

You can access information about your investment in the Funds by logging onto the Platinum secure client website (a link is provided on Platinum's website with access restricted by client ID and password).

Information available on the website includes:

- your account balance (in each Fund / Unit Class in which you hold units);
- your transaction history;
- statements and Fund performance;
- distribution and tax information; and
- registered account details.

Enhanced functionality means you can:

- upload scanned forms or documents via the secure client website; and
- provided you have the appropriate user access, you can update your details (with the exception of nominated financial institution accounts and Regular Investment Plans).

When completing your Application Form, you may elect to receive access to the secure client website. You can also register for access by completing an Online Access Registration Form which is available on Platinum's website or from Investor Services.

In each case you will need to provide an email address and mobile number for each individual that you require to be issued with a client ID and password ("**User**"). The request must be signed by an authorised signatory (or signatories where more than one is required) on the relevant account. Once registered, you will receive an email containing your unique 8 digit client ID, and a link to set your password. We will also send a one time security code via SMS to your mobile for verification purposes.

You acknowledge and agree that you shall be bound by any instruction, request or change of details which are submitted by a User via the secure client website as if such instruction, request or change of details was made by you and Platinum shall be entitled to rely on such instruction, request or change of details without further enquiry. Platinum's 'Facsimile, email and internet – terms and conditions' on page 45 shall apply.

Reporting

As an Investor you should receive:

- an investment confirmation, generally within 10 Business Days of an application (initial and additional, but not those

made under the Regular Investment Plan) being accepted by us;

- a confirmation of a withdrawal, switch or transfer of units, generally within 10 Business Days of your request being accepted by us;
- a confirmation of any change to your personal details, generally within 10 Business Days of our receipt of your instruction;
- a holding summary (sent quarterly or annually, as elected by you) detailing all of your transactions for the reporting period;
- the quarterly investment report, which provides performance, portfolio changes, commentary and outlook for each of the Funds;
- an AMIT member annual ("**AMMA**") statement (and tax guide) for each financial year, generally sent by the end of July;
- upon election by you, the Funds' annual financial report (enclosing the Funds' financial statements) within 3 months of the end of the financial year;
- an annual fee statement (or otherwise when you fully exit the Funds) as prescribed by the Corporations Act; and
- a withdrawal capital gains tax statement for Australian tax resident Investors that have withdrawn units during the financial year (annually or when you fully exit the Funds).

Continuous disclosure

The Funds are disclosing entities and are subject to regular reporting and disclosure obligations. Copies of documents lodged with ASIC in relation to the Funds may be obtained from, or inspected at, an ASIC office. We can also provide you with a paper copy (free of charge) of:

- the Funds' annual financial report (including financial statements) most recently lodged with ASIC;
- any half-yearly financial report lodged with ASIC in respect of the Funds; and
- any continuous disclosure notices given for the Funds after the lodgement of the annual financial report.

Platinum follows ASIC's good practice guide for continuous disclosure and in so doing will post copies of continuous disclosure notices on its website. Investors are encouraged to check the website regularly for such information.

The Funds' annual financial reports are also available from Platinum's website.

Updated information

While the terms and features of the Funds relating to this PDS are current at the issue date of this PDS, they may change in the future. We reserve the right to change the terms and features of the Funds in accordance with the Constitutions of the Funds and the Corporations Act.

If a change is considered materially adverse, we will issue a supplementary or new PDS. Updated information which is not materially adverse is accessible from Platinum's website or Investor Services. A paper copy of the updated information will be available free of charge upon request.

Taxation Information

The following information summarises some of the taxation issues you should consider before making an investment.

The information is intended for use by Investors who hold Units in a Fund on capital account and are not considered to be carrying on a business of investing, trading or investing for the purpose of profit by sale. It should be used as a guide only and does not constitute professional tax advice as individual circumstances may differ. The taxation of a unit trust investment such as Units in the Funds can be complex and may change over time. The comments below are current as at the date of preparation of this PDS. Please consult your tax adviser about the specific implications relevant to your situation.

Tax position of the Funds

General

The Funds are Australian resident trust estates for Australian tax purposes. Although the Funds have a wide range of authorised investments, Platinum will only engage in 'eligible investment business' as described in section 102M of the *Income Tax Assessment Act 1936*. On this basis, each Fund should not be a 'trading trust', and so should not be taxed as a company.

The Funds are expected to continue to qualify as Managed Investment Trusts ("MITs") and also as Attribution Managed Investment Trusts ("AMITs"). Under the AMIT regime, generally, no Australian income tax will be payable by Platinum as the Responsible Entity on behalf of the Funds on the basis that an Investor who holds Units in a Fund is attributed all of the trust components of the Fund on a fair and reasonable basis for each income year.

In the case where a Fund makes a loss for Australian tax purposes, the Fund cannot distribute the loss to Investors. However, subject to the Fund meeting certain conditions, the Fund may be able to recoup such losses against assessable income of the Fund in subsequent income years.

Deemed Capital Gains Tax ("CGT") election

The Funds have made the irrevocable election for deemed capital account treatment of gains and losses on the disposal of 'covered' investments (including equities and units in other trusts, but generally not derivatives and foreign exchange contracts). On this basis, realised gains and losses of a Fund on the disposal of the Fund's covered investments should be treated as capital gains and losses. Where the covered investments have been held by the Fund for at least 12 months (excluding dates of acquisition and disposal), the Fund should be entitled to a 50% capital gains discount in respect of any nominal gain. Net capital losses incurred by a Fund can generally be carried forward and offset against the 'grossed up' discount capital gains and/or non-discount capital gains derived in subsequent income years.

Controlled Foreign Company ("CFC") provisions

The CFC provisions may apply to investments in controlled foreign companies and trusts such that unrealised gains and undistributed income from investments in CFCs may be taxed on an accruals basis. The Responsible Entity will endeavour to manage each Fund's Portfolio such that the CFC provisions should not apply.

Tax reform

The tax information included in this PDS is based on the taxation legislation and administrative practice at the issue date of this PDS. The expected tax implications of investing in a Fund may change as a result of changes in the taxation laws and interpretation of them by the Courts and/or the Australian Taxation Office.

The Australian Government previously announced a proposal to change the treatment of discount capital gains derived by MITs and AMITs. The CGT discount would no longer be applied at the trust level. The trust would attribute gross capital gains and the investor would continue to claim the discount, if applicable. The proposed amendment would be expected to apply to income years commencing on or after three months after the date of Royal Assent of the enabling legislation. At present, legislation to introduce this proposal has not yet been released.

Investors should seek their own professional advice in relation to the potential impact of any changes in the tax law on their tax position.

Tax position of Australian resident Investors

General

The taxable net income of a Fund for a given income year that is attributed to an Investor on a fair and reasonable basis should be included in the Investor's income tax return for that year irrespective of whether that income is distributed or not.

An Investor may receive an attribution of the taxable net income of a Fund for an income year if the Investor holds Units at the end of an income year or if the Investor redeems any Units in a Fund during the income year. The attribution of taxable net income to a redeeming unitholder may include, but is not limited to, income and other gains realised by a Fund to fund the redemption of Units by the Investor and, potentially, where fair and reasonable, a portion of income or gains for the income year as at the time of the redemption.

Distributions

Investors in the Funds will be provided with an AMIT member annual ("AMMA") statement (generally in July each year) indicating the attributed amounts and cash distribution, including any Foreign Income Tax Offsets ("FITOs") and franking credit entitlements, any net increase or decrease in the capital gains tax cost base of their Units, and any taxes withheld.

The taxation treatment of tax components may differ. For example, in addition to investment income such as foreign income, a distribution from a Fund may include a non-assessable component, other capital gains distribution component, as well as net capital gains (of which some part may be discount capital gains).

Given the investment objective of the Funds, it is anticipated that the majority of the Funds' income will be foreign income. Investors may be entitled to a FITO for foreign tax already paid by a Fund in respect of this income. Both the foreign income and any related FITOs should be included in the Investor's income tax return. To the extent that an Investor does not have sufficient overall foreign sourced income to utilise all of the FITOs relevant to a particular

year of income, the excess FITOs cannot be carried forward to a subsequent income year and will lapse.

In respect of FITOs relating to capital gains, Investors will need to calculate the FITO to which they are entitled based upon the information provided on the AMMA statement (or otherwise by Platinum) and their particular circumstances. Investors should refer to the AMMA statement and other information provided by Platinum to determine whether FITOs applicable to capital gains have been proportionately reduced to the extent that capital losses have been applied to reduce the relevant capital gains at the Fund level and have been reduced for the application of the 50% capital gains tax discount to the relevant discount capital gains at the Fund level. Capital gains reported to an Investor should be included in the calculation of their net capital gain or loss for that income year. In performing this calculation, discounted capital gains should be multiplied by two before applying the discount concession available to the Investor (refer below to 'Withdrawals and disposal of Units').

The cash distributed by a Fund may be greater or less than the taxable income attributed to an Investor. Broadly, to the extent that the taxable income attributed exceeds the cash distributed (including amounts reinvested), the cost base of Units should be increased. Conversely, to the extent that the cash distributed (including amounts reinvested) exceeds the amount of taxable income attributed, the cost base of Units should be decreased. The net cost base adjustment will be advised to the Investor in the AMMA statement.

In some instances, Platinum as the Responsible Entity will make the cash distribution before 30 June. The taxable income will still be calculated for the year to 30 June and attributed to Investors on a fair and reasonable basis under the AMIT regime.

Acquiring Units

The amount paid as consideration for the acquisition of Units by application, together with the incidental costs of acquisition, should form part of the cost base of the Units.

Fixed cash distribution option

As the tax components of a Fund attributed to you can vary from year to year, your cash distribution entitlement may also vary.

The fixed cash distribution option seeks to provide you with a fixed cash distribution amount each year. While your cash distribution entitlement for a given year remains unchanged, the cash payment for that year is increased or decreased to reach the fixed cash distribution amount.

The tax implications to you each year will depend on both the tax components of the Fund and your personal circumstances.

Under the fixed cash distribution option, you will still include the same taxable amounts in your tax return as if you received your distribution entitlement in cash. Additional tax implications arise in respect of the fixed cash distribution option.

Where your cash distribution entitlement:

- is more than your fixed cash distribution amount, the excess shall be automatically applied to reinvest in units at the ex-distribution unit price. These units would be acquired with an expected capital gains tax cost base equal to the amount of the excess; or

- is less than your fixed cash distribution amount, the shortfall shall be supplemented by withdrawing sufficient units at the ex-distribution unit price, such that the withdrawal proceeds equal the shortfall amount. The withdrawal of units may give rise to a capital gain or loss to you (refer below).

While the fixed cash distribution option seeks to provide a consistent cash distribution each year, the tax components attributed to you each year will still be based on your share of the taxable net income of the Fund. Further, depending on the difference between the cash distribution entitlement and fixed cash distribution amount each year, the above implications may also affect your tax outcomes.

Accordingly, the fixed cash distribution option does not seek to provide consistent tax outcomes from year to year. As the tax components may vary each year, the tax outcomes and therefore your net cash distribution after tax may also vary.

If in doubt about the tax implications of the fixed cash distribution option, you should seek professional advice.

Withdrawals and disposal of Units

Where an Investor withdraws, switches or transfers Units in a Fund, this may constitute a disposal for tax purposes.

An Investor should include any realised capital gain or loss on disposal of their Units (together with any capital gains that have been reported by a Fund on their AMMA statement or other information provided by Platinum) in the calculation of their net capital gain or loss.

Any net capital gain will be included in the assessable income of the Investor. A net capital loss may only be offset against realised capital gains. Discount capital gains must be grossed-up to the nominal gain before capital losses are applied. A net capital loss may be carried forward for offset against realised net capital gains of subsequent years, but may not be offset against ordinary income.

In calculating the taxable amount of a net capital gain, a discount of one half for individuals and trusts or one third for complying superannuation entities may be allowed where the Units have been held for 12 months or more (excluding the date of acquisition and date of disposal). No CGT discount is available to corporate Investors.

The calculation of an Investor's net capital gain or loss may also be affected by any cost base adjustments (refer above). Where Units are held as part of a business of investing or for the purpose of profit making by sale, realised gains and amounts otherwise non-assessable resulting in cost base decreases may constitute ordinary income and losses realised may constitute allowable deductions. We recommend that Investors holding Units as part of a business of investing or for the purpose of profit making by sale, consult their tax adviser regarding their tax implications.

Tax position of non-resident Investors

Appropriate deductions of Australian withholding tax will be made from attribution (and distribution) of Australian sourced income and certain gains to non-resident Investors. Non-resident Investors may also be subject to tax on distributions in their countries of residence (for tax purposes) and may be entitled to foreign tax credits under the tax laws of the relevant country.

It is expected that non-resident Investors should generally not be subject to Australian CGT on the disposal of Units.

Broadly, a non-resident Investor in a Fund will be subject to CGT on the disposal of their Units if they, together with any associates, hold or had an option or right to hold 10% or more of the Units at the time of disposal or throughout a period of 12 months during the two years prior to disposal, and the majority of the Fund's assets comprise taxable Australian property (i.e. "land rich" investments).

In this regard, it is not expected that the Funds will hold taxable Australian property.

A non-resident Investor may also be subject to CGT where the Units in a Fund have been held as part of the carrying on of a business through a permanent establishment in Australia.

However, if the non-resident Investor holds their Units as part of a business of investing or for the purpose of profit making by sale, realised gains and amounts otherwise non-assessable resulting in cost base decreases may be subject to Australian tax as ordinary income, subject to any treaty relief.

We recommend that non-resident Investors consult their tax adviser regarding their tax implications, including the tax implications in the country in which they are resident for tax purposes.

Tax position of New Zealand resident Investors

New Zealand resident Investors, who hold Units in a Fund, will generally be deemed to hold an interest in a Foreign Investment Fund ("FIF") unless the interest falls within the very limited FIF exemption for certain Australian unit trusts. This exemption will not apply to these Funds.

New Zealand resident Investors will need to calculate their FIF income each year under one of five calculation methods, being: fair dividend rate method ("FDR"); comparative value method ("CV"); attributable FIF income method; deemed rate of return method; or cost method.

The default method is the FDR method. Under this method, most New Zealand resident Investors will be taxable each year on 5% of the opening market value of their investment in the Funds. Special calculation rules apply to unit trusts or other New Zealand resident Investors who value their Units on a regular basis.

Under the FDR method, dividends or any gain on the sale or withdrawal of Units in the Funds are not separately taxed in New Zealand. No deduction is available for any losses under the FDR method.

Quick sale rules will apply to Units bought and sold during the income year which result in the New Zealand resident Investor being taxable generally on the lesser of any gain on the quick sale and 5% of the cost of the Units (determined on an average cost basis).

Individuals and eligible family trusts have a "safety net" option, which allows these investors to calculate FIF income under the CV method based on their actual economic return where this is less than the amount calculated under FDR. Where the choice of

FDR or CV methods is available, New Zealand resident Investors may choose the method that produces the lower taxable income each income year, but the method must be applied consistently to all FIF interests for that income year.

A de minimis concession from the FIF rules applies to individual investors who hold offshore shares (excluding certain Australian listed shares) with an aggregate cost of up to NZ\$50,000.

Individual New Zealand resident Investors may choose whether to apply the NZ\$50,000 de minimis threshold or apply the FIF rules. Individual New Zealand resident Investors who apply the de minimis exemption will be taxed on distributions from the Funds. They can also be taxable on an exit from a Fund in certain circumstances.

New Zealand resident Investors are generally not entitled to claim a tax credit in New Zealand for overseas withholding tax deducted with respect to a Fund's underlying investments.

Quoting your Tax File Number ("TFN") or Australian Business Number ("ABN")

Generally, it is not compulsory for investors to quote their TFN, ABN or exemption details. However, should an Investor choose not to, Platinum as the Responsible Entity may be required to withhold tax from the Investor's distributions or attributions at the top marginal rate plus Medicare levy. The investor may be able to claim a credit in their tax return for any TFN or ABN tax withheld.

Closely held trusts

Broadly, where a Fund's top 20 individual Investors own 75% or more of the Fund's issued units, it will be deemed a "closely held trust". If this occurs, Platinum will be obligated to provide to the ATO details of each Investor who is a trustee of another trust (where that Investor is acting in its capacity as a trustee of another trust). Failure to disclose such information to the ATO will result in the untaxed part of the relevant Investor's share of the Fund's net income (to which they are entitled) being taxed at the highest marginal tax rate, plus Medicare levy.

One or more of the Funds may, at times, be a "closely held trust". Prospective investors will therefore be required to indicate on the Application Form whether or not they are acting as trustee of another trust and (if so) provide details of the ultimate beneficiaries.

The Funds' Constitutions permit Platinum to recover any tax levied, or which may be levied, by the ATO in respect of your investment.

Goods and Services Tax ("GST")

No GST is payable on the application or withdrawal of your Units.

The Funds will, however, pay GST on the expenses they incur in carrying on their operations, including on fees charged by Platinum. The Funds are registered for GST and in certain circumstances, they will be entitled to claim input tax credits and/or reduced input tax credits for this GST which will reduce the cost to the Funds.

Additional Information

Our role as Responsible Entity

Platinum is the Responsible Entity and investment manager of the Funds.

Platinum is responsible for the proper and efficient administration, management and valuation of the Funds, including all investment decisions. Platinum is required to comply with the provisions of the Funds' Constitutions, the Corporations Act, ASIC policy and any additional obligations created by this PDS. Subject to these obligations, Platinum has absolute discretion as to the exercise of its powers under each Fund's Constitution.

The Funds' Constitutions

Each Fund is governed by a Constitution. The Constitution, together with this PDS, the Corporations Act and ASIC policy, regulates the Fund and our legal relationship with Investors.

A Constitution may be amended by Platinum, provided the amendment is not materially adverse to the rights of Investors. Otherwise, Platinum must obtain the approval of Investors by special resolution (which requires at least 75% of the votes cast by Investors being in favour of the resolution and entitled to vote on the resolution).

You may inspect the Funds' Constitutions at our office on any Business Day, free of charge.

By investing in a Fund, you agree to be bound by the terms of this PDS and the Fund's Constitution (as amended from time to time). You should consider the terms of the Constitution before investing in a Fund.

Additional investments to a new Fund

Platinum has been granted ASIC relief so that Investors can invest in a Unit Class in another Fund (described in this PDS) not initially invested without the need to complete an Application Form. This arrangement is possible because all information about the Funds is contained in one PDS. A copy of the relief is available by contacting us. You are not obliged to participate in this arrangement, and may instead complete an Application Form.

Facsimile, email and internet – terms and conditions

Investors who use facsimile, email or Platinum's website to send instructions or update details (including application, withdrawal, switching, and change of details requests) ("**Instructions**") to Platinum do so at their own risk. Electronic communication is inherently unreliable and confirmation of physical receipt by Platinum of any facsimile or email Instruction should be verbally sought by phoning Investor Services. Platinum will acknowledge receipt of any Instruction submitted via the Platinum website by sending an email confirmation to the email address nominated by you. However, if you do not receive this confirmation email upon submitting an Instruction, you should call Investor Services. Please be careful – the Investor bears the risk that a fraudulent withdrawal request can be made by a person who has access to the Investor's account details and signature.

To the maximum extent permitted by law, if an Investor wishes to send Instructions to Platinum via facsimile, email or the Platinum website, the Investor agrees to the following terms and conditions:

- Platinum shall be entitled to rely on any such Instructions;
- Platinum shall not be responsible for carrying out any verification of such Instructions other than in the case of the Platinum secure client website, verification of the secure ID and password and in the case of email or facsimile Instructions, that the Instruction bears the Investor's account name and number. Where an Instruction bears a signature or signatures, Platinum will also check that the signature or signatures appear to be those of the Investor or an authorised representative (agent or attorney);
- Platinum will not be responsible for any errors in or omissions from such Instructions and Platinum has no liability for any loss arising in relation to such errors or omissions;
- You hereby indemnify Platinum on an after tax basis (including all of its directors, officers and employees) and will hold them harmless from and against any and all losses (including legal fees and expenses) arising out of or in connection with any of them acting or relying upon any such Instructions;
- Platinum will not be liable for any loss arising from (i) any computer viruses, malicious code or any other technical defect (including loss, damage or corruption of data); (ii) errors or delays during transmission or receipt of Instructions; (iii) failure of transmission of Instructions; (iv) fraudulent or unauthorised Instructions; or (v) any circumstances beyond the control of Platinum including without limitation, unavailability or interruption of the internet or other electronic communication services;
- Platinum will not be required to act on any Instruction if Platinum reasonably considers that:
 - the Instruction is fraudulent or is not from the Investor or an authorised representative (agent or attorney);
 - the Instruction is incomplete, unclear or ambiguous;
 - acting on the Instruction may be unlawful or conflict with applicable laws;
 - the Instruction was not received or was not received in time for the required action to be taken or otherwise does not comply with Platinum's processing requirements; or
 - by acting on the Instruction, Platinum would be exposed to loss or liability for which it may not be adequately indemnified.
- We will not accept a facsimile receipt (from the sender's machine) or email record (from the sender's computer or internet provider) as evidence of our receipt of the facsimile or email.

Appointment of an authorised representative (agent or attorney) – terms and conditions

You agree to the following terms and conditions when appointing an authorised representative (agent or attorney):

- To nominate an authorised representative (agent or attorney) to operate your investment account, you must provide to us an original and complete Operating Authority Form or valid power of attorney document.
- A valid power of attorney document is an original document or a certified copy of that document that looks 'on its face' to be a complete power of attorney given by you. A certified copy must have an original signature of an Authorised Certifier – i.e. a person permitted by Australian law to witness a statutory declaration.* The Authorised Certifier is required to: check that the copy is a true and complete copy of the original document; certify this by writing and signing a statement on front of the copy – 'I [name] [occupation] certify this to be a true and complete copy of the original [name document]'; and sign each page of the copy.
- You warrant that your nominated authorised representative (agent or attorney) is older than 18 years of age and is not a financial adviser.
- You acknowledge and agree that you are bound by all acts of your authorised representative (agent or attorney), including: signing or otherwise authorising an application to invest; preparing, signing and lodging or otherwise communicating a request to withdraw an investment; directing payment of any amount representing distributions, withdrawal proceeds or otherwise, to you or to any other person; obtaining information about your investment; directing Platinum to send all notices, cheques, reports and other material to the authorised representative on your behalf; or changing your investment account details.
- The exercise of any of the powers by a person reasonably believed by Platinum to be your authorised representative (agent or attorney) or authorised to act on behalf of the authorised representative (in the case of an entity appointed as your authorised representative), will be treated as if you had personally exercised those powers.
- Your authorised representative (agent or attorney) does not have the power to appoint another or different authorised representative (agent or attorney) to act on your behalf.
- You indemnify us from and against all losses, liabilities, actions, proceedings, claims and demands arising from instructions (we receive) from your authorised representative (agent or attorney) whether or not your authorised representative (agent or attorney) was acting as authorised by you.
- We reserve the right not to accept an instruction from your authorised representative (agent or attorney).
- You will provide us with an original signed instruction to cancel your appointment of an authorised representative (agent or attorney).
- An additional appointment by you will void any previously appointed authorised representative (agent or attorney).

* Please refer to page 45 of the Application Form for a list of persons who are authorised to certify documents.

Applications by Minors

As a person under the age of 18 (a "Minor") does not have legal capacity to contract, we cannot accept an application to invest in a Fund which is in the name of a Minor. However, an adult may apply to invest in a Fund as trustee for a Minor. Once the Minor turns 18, the Units may then be transferred into an account in the name of the Minor.

If you wish to invest on behalf of a Minor it is recommended that you check the tax implications with your tax adviser.

Cooling-off

Investments of less than \$500,000 in a Fund / Unit Class (and that are not otherwise made by a 'wholesale client' as defined by the Corporations Act) give rise to a cooling-off right.

This right provides the Investor with a 14 day cooling-off period to decide if the investment in the Fund is right. The 14 day period commences on the earlier of the date of receiving the transaction confirmation or the end of the fifth Business Day after the units in a Fund are issued to an Investor.

A cooling-off right will not arise in certain circumstances, including where units are issued pursuant to a switch, an additional investment, a Regular Investment Plan, or as part of a distribution arrangement. It is also not available to 'Indirect investors' – refer to page 49.

If cooling-off is exercised, the amount repaid will be based on the applicable exit unit price (meaning the increase or decrease in the value of your investment will be taken into account).

The repayment of your investment may create a taxable gain or loss. We recommend that you seek professional advice from your financial and/or tax adviser.

Survivorship and joint ownership

Upon notice of an Investor's death (where the investment is held by one individual), units will be dealt with as part of the Investor's estate. Generally, we will only pay to the executor, subject to receipt of relevant documentation in accordance with our internal requirements, who will distribute to beneficiaries accordingly.

Where an account is held in the name of two or more individuals, the investment will be recorded as joint ownership. If one of the joint owners dies, units will be held in the name of the survivor(s) upon proof of death.

Investor liability

We have included provisions in each Fund's Constitution designed to protect Investors. The Constitution of each Fund provides that Investors will not, by reason of being an Investor alone, be personally liable with respect to any obligation or liability incurred by the Responsible Entity. However an absolute assurance about these things cannot be given – the issue has not been finally determined by Australian courts.

Limitation of liability and indemnity

Subject to the Corporations Act, the Funds' Constitutions provide that Platinum is not liable for any loss or damage to any person (including an Investor) by reason of not receiving sufficient or adequate instructions or information from an Investor or other

person. Platinum will also, subject to the Corporations Act, not incur any liability, be liable to account to anyone or be liable for loss or damage in relation to the performance of its duties in relation to determinations of fact or law or decisions in respect of tax.

Platinum is entitled to be indemnified from a Fund for all expenses which it may incur or become liable for in connection with the proper performance of its duties as Responsible Entity of the Fund including, its administration or management and the maintenance or management of the authorised investments of the Fund.

Platinum has a right to be indemnified out of the assets of a Fund in respect of its acts or omissions. Platinum may not rely on this indemnity to the extent it has acted fraudulently, with wilful or gross misconduct or dishonesty, or where Platinum fails to show the degree of care and diligence required of Platinum, having regard to the powers, authorities and discretions conferred on it by the Fund's Constitution.

Platinum is also entitled to be indemnified in respect of tax paid or payable on behalf of an Investor. If the amount payable to an Investor is not adequate to meet the tax liability, Platinum may withdraw units held by the Investor.

Complaints

Platinum has standard arrangements in place for the handling of complaints. If you have a complaint about your investment in a Fund, contact Investor Services. We will acknowledge a complaint promptly and will make every effort to resolve your issue within 30 days.

If you are not satisfied with the final complaint outcome proposed, any aspect of the complaints handling process or your complaint remains unresolved after 30 days, the Australian Financial Complaints Authority (AFCA) may be able to assist. AFCA operates the external complaints resolution scheme of which Platinum is a member. You can contact AFCA as follows:

Online: www.afca.org.au

Email: info@afca.org.au

Phone: 1800 931 678

Mail: Australian Financial Complaints Authority
GPO Box 3
Melbourne VIC 3001

Privacy law

Platinum and its related bodies corporate collect your personal information for the following purposes:

- to assess and process your application;
- assist you when an online application is not completed;
- to administer your investment and account;
- to verify your identity;
- to answer your questions and resolve your complaints;
- to provide assistance and support in relation to your investment and account;
- to communicate with you on an ongoing basis about your investment, the Funds and the market;
- for analysis to improve our products and services which may include providing your personal details to other external

service providers (including data analytics companies and companies conducting market research);

- to advise you of new developments relevant to your investment in the Funds;
- subject to your right to opt out, to send you education and marketing information about Platinum and the Funds and to provide or market other products and services to you; and
- to comply with applicable laws and regulations, including without limitation the Corporations Act and AML/CTF laws and rules.

If you do not provide your personal information to Platinum, we may not be able to process your application or conduct some or all of the above activities.

In most cases, we collect your personal information directly from you, including via the Application Form you submit to us or in the course of other communications with you, which may occur through our website or when you phone or contact our staff. In some cases, we may also collect personal information from a third party such as a financial adviser.

In order to perform our role and for the purposes described above, we may disclose some or all of your personal information to our related bodies corporate and to other persons/entities outside of Platinum, including:

- to Platinum's agents, contractors and providers of outsourced services, such as cloud storage, identification authority, information technology, registry, consulting, mailing and printing services;
- to the Funds' service providers, for example to the administrator, custodian and auditor for the Funds;
- to payment systems operators for the purpose of managing transactions through those payment systems;
- directly or indirectly (via a third party) to your financial adviser, advisory firm (or dealer group) or administrative firm or other person (as authorised by you, until such authorisation is expressly revoked by you in writing);
- to government or regulatory agencies/bodies (such as ASIC, ATO, AUSTRAC or a law enforcement agency) when required by Australian law or regulation;
- to external dispute resolution schemes and complaints bodies that assist consumers to resolve any complaints you have made to them;
- as required or authorised by law, regulation or by a court order; and
- to Platinum's professional advisers such as our financial advisers, auditors and legal advisers for the purposes of obtaining their professional services (in the case of our legal advisers, these services will include assessing our legal obligations and defending any legal claims or potential claims).

The Corporations Act requires us to keep your name and address on a register, which may be inspected by any person on request.

In order to use and disclose your personal information for the purposes stated above, we may be required to transfer your personal information to entities located outside of Australia where your personal information may not receive the level of

protection afforded under Australian law. By completing the Application Form, you consent to your personal information being transferred overseas for these purposes.

By completing the Application Form, you also consent to receiving commercial electronic messages from Platinum and its related bodies corporates regarding the Funds and other similar financial products and/or services offered by Platinum and/or its related bodies corporates.

Our privacy policy, which is available at www.platinum.com.au/privacy/ explains how you may access and correct personal information that we hold about you. It also sets out how you may contact us to complain about a breach of the Privacy Act 1988 (Cth) and how we will deal with such a complaint.

If you have any questions or concerns about privacy or if you would like further information about our privacy practices, please contact our Privacy Officer using the following details:

Direct marketing

If you don't want to receive direct marketing from us, you can tell us by calling Investor Services on 1300 726 700 or 02 9255 7500 or sending an email to invest@platinum.com.au

AML/CTF legislative requirements

As required by Australian Anti-Money Laundering and Counter-Terrorism Financing ("**AML/CTF**") laws and rules, Platinum has implemented AML/CTF compliance and monitoring programs. Accordingly, under AML/CTF laws and rules and the sanctions of Australia (or other sanction regimes that we may comply with), we must (at various times, including before Platinum can issue units in a Fund to an investor) collect certain customer information and verify that information. Verification of that information may require us to also collect identification documentation from investors and beneficial owners of certain investors. Customer identification information may include the following:

- if the investor is a natural person, name, address and date of birth;
- if the investor is a business entity, details of directors and beneficial owners;
- if the investor is a trustee, details of the trust, beneficial owners, beneficiaries and settlor; and
- additional information concerning business activities, structure and sources of funds.

Platinum may also require current Investors to provide updated or additional information from time to time. At times we may be obliged to disclose such information and documentation to Australian regulatory and/or law enforcement agencies.

The Application Form has been designed to comply with our legal requirements.

Australian law may require Platinum to seek further information from an investor before accepting or processing an application or withdrawal.

Platinum will refuse to accept an application from, or issue units in a Fund to, an investor until Platinum has satisfactorily concluded a customer identification procedure in relation to the investor. Platinum may also delay or refuse any application, request or transaction, if Platinum is concerned that the application, request or transaction may cause it to contravene the *Anti-Money Laundering and Counter-Terrorism Financing Act 2006* (Cth). Platinum will incur no liability to an Investor (including an applicant) if it does so. We are not liable for any loss you may suffer as a result of our compliance with this legislation.

Foreign Account Tax Compliance Act ("**FATCA**") and OECD Common Reporting Standard ("**CRS**")

FATCA was enacted by the United States (U.S.) Congress to improve compliance with U.S. tax laws by imposing due diligence and reporting obligations on foreign financial institutions, notably the obligation to report U.S. citizen or U.S. tax-resident account holders to the U.S. Internal Revenue Service.

Similar to FATCA, the CRS for the automatic exchange of information, is a single global standard for the collection and reporting to tax authorities of information by financial institutions on non-Australian residents.

Accordingly, Platinum may request certain information (including personal information) about yourself (for individual investors) or your controlling persons (where you are an entity) in order for Platinum to comply with its FATCA or CRS obligations. Platinum may provide such information to the Australian Tax Office who may then exchange this information with the tax authorities of another jurisdiction or jurisdictions, pursuant to intergovernmental agreements to exchange financial account information.

In the event that a Fund suffers any amount of withholding tax (including FATCA withholding tax) and/or penalties, neither the Fund nor the Responsible Entity acting on behalf of the Fund, will be required to compensate you for any such tax, except in exceptional circumstances.

The Funds' bank accounts

Any interest (after deduction of taxes and bank charges) accruing in the Funds' application or distribution accounts is an asset of the relevant Fund (apportioned to the dollar value of applications and/or distributions, as applicable). An Investor has no right to any interest arising in the accounts.

Mortgagee interests/margin lending

Platinum will not recognise any security interest (notice of mortgage, etc) over any unit holdings in the Funds.

If you invest in a Fund through a margin lender, you are directing the margin lender to arrange for your monies to be invested in a Fund on your behalf. Accordingly, you do not acquire the rights of an Investor in a Fund. The margin lender is the Investor and acquires these rights and can exercise, or decline to exercise them, on your behalf according to your contract with the margin lender. As an investor in a margin lending product, you must read this PDS in that context.

When you invest through a margin lender and wish to make additional investments, realise your investment, or transfer your investment to another person, you will have to direct the margin lender to do so on your behalf. All correspondence and dealings in your investment will be through your margin lender. Web access is also obtained via your margin lender.

Platinum accepts no responsibility for any aspect of the margin lender or (without limitation) for any failure on the part of the margin lender in respect of its administration, payment of income or other distributions, payment of withdrawal proceeds, fees charged or the efficiency or viability of the margin lending product.

Indirect investors

When you access the Funds through an IDPS or IDPS-like scheme (commonly, a master trust or wrap account) you are directing the operator of the IDPS or IDPS-like scheme to arrange for your monies to be invested in a Fund on your behalf. Accordingly, you do not acquire the rights of an Investor in the Fund. The operator (or its custodian/nominee) is the Investor and acquires these rights and can exercise, or decline to exercise them, on your behalf according to the arrangements governing the IDPS or IDPS-like scheme. As an investor in the IDPS or IDPS-like scheme, you must read this PDS in that context.

When you invest through an IDPS or IDPS-like scheme and wish to make additional investments, realise your investment, or transfer your investment to another person, you will have to direct the operator of the IDPS or IDPS-like scheme to do so on your behalf.

Platinum accepts no responsibility for any aspect of the IDPS or IDPS-like scheme or (without limitation) for any failure on the part of the IDPS or IDPS-like scheme in respect of its administration, payment of income or other distributions, payment of withdrawal proceeds, fees charged or the efficiency or viability of the IDPS or IDPS-like scheme.

Specifically, Platinum's agreement to permit the naming of a Fund in the product disclosure statement issued in respect of the IDPS or IDPS-like scheme, or list of investments that may be accessed via the IDPS or IDPS-like scheme, does not signify an endorsement by Platinum, or our support for, the IDPS or IDPS-like scheme.

Consent to be named

MSCI Limited has given and has not before the date of this PDS, withdrawn its consent to be named in this PDS in the form and context in which it is named. MSCI Limited has not caused or authorised the issue of this PDS and makes no representation or warranty, explicit or implied as the fairness, accuracy or completeness of the information contained in this PDS*.

Authorisation of issue

This PDS has been authorised for issue by the directors of Platinum Investment Management Limited.

Glossary

Direct Debit Service Agreement

This is your Direct Debit Service Agreement with Platinum. The agreement is designed to explain what your obligations are when undertaking a direct debit arrangement with us. It also details what our obligations are to you as your direct debit provider.

This agreement must be read prior to completing the direct debit authority in the Application Form, Additional Investment Form or Regular Investment Plan Form.

Definitions

- **account** means the account held at your financial institution from which we are authorised to arrange for funds to be debited.
- **agreement** means this Direct Debit Service Agreement between you and us.
- **business day** means every day banks are open for business in Sydney, Australia except Saturday, Sunday or a public holiday.
- **debit day** means the day that payment by you to us is due.
- **debit payment** means a particular transaction where a debit is made.
- **direct debit request** means the direct debit request between us and you.
- **us** or **we** means Platinum Investment Management Limited, ABN 25 063 565 006, (the Debit User) you have authorised by signing a direct debit request.
- **you** means the customer who signed the Direct Debit Request.
- **your financial institution** means the financial institution where you hold the account from which you have authorised us to arrange a debit.

1. Debiting your account

By signing a direct debit request, you have authorised us to arrange for funds to be debited from your account. You should refer to the direct debit request and this agreement for the terms of the arrangement between us and you.

We will only arrange for funds to be debited from your account as authorised in the direct debit request. If the debit day falls on a day that is not a business day, we may direct your financial institution to debit your account on the following business day. If you are unsure about which day your account has or will be debited you should ask your financial institution.

2. Changes by us

We may vary any detail of this agreement or a direct debit request at any time by giving you at least thirty (30) days' written notice.

3. Changes by you

You may change, stop or defer a debit payment, or terminate this agreement by sending us a signed instruction. We require at least two (2) full business days notification to process your request. You may fax or email to us or otherwise upload via the Platinum secure client website, your signed written instruction, although if you use fax or email for this purpose we ask that you phone to verify receipt – refer to 'Facsimile, email and internet – terms and conditions' on page 45. You may also stop an individual debit by contacting your own financial institution.

4. Your obligations

You must ensure that there are sufficient cleared funds available in your account to allow a debit payment to be made in accordance with the direct debit request. If there are insufficient cleared funds in your account to meet a debit payment:

- you may be charged a fee and/or interest by your financial institution;
- you may also incur fees or charges imposed or incurred by us; and
- you must arrange for the debit payment to be made by another method or arrange for sufficient cleared funds to be in your account by an agreed time so that we can process the debit payment.

You should check your account statement to verify that the amounts debited from your account are correct

5. Dispute

If you have any questions or concerns about the direct debit terms, such as where you consider that a debit has been initiated incorrectly, please contact Investor Services on 1300 726 700 (Australia only) or 0800 700 726 (New Zealand only). You may also contact your financial institution. If we conclude as a result of our investigations that your account has been incorrectly debited we will respond to your query by arranging for your financial institution to adjust your account accordingly. We will also notify you of the amount by which your account has been adjusted. If we conclude as a result of our investigations that your account has not been incorrectly debited, we will respond to your query by providing you with reasons and any evidence for this finding.

6. Accounts

You should check:

- with your financial institution whether direct debiting is available from your account as direct debiting is not available on all accounts offered by financial institutions;
- your account details which you have provided to us are correct by checking them against a recent account statement; and
- with your financial institution before completing the direct debit request if you have any queries about how to complete the direct debit request.

7. Confidentiality

We will keep any information (including your account details) in your direct debit request confidential. We will make reasonable efforts to keep any such information that we have about you secure and to ensure that any of our employees or agents who have access to information about you do not make any unauthorised use, modification, reproduction or disclosure of that information.

We will only disclose information that we have about you:

- to the extent specifically required by law; or
- for the purposes of this agreement (including disclosing information in connection with any query or claim).

8. Indemnity

You indemnify Platinum against all losses, costs, damages and liability that we suffer as a result of you breaching this agreement or you providing us with an invalid, ineffective or non binding direct debit request addressed to us or if for any other reason the instructions contained in a direct debit request by you are not or cannot be performed. This indemnity includes, without limitation, legal costs and expenses on a full indemnity basis.

This indemnity is a continuing obligation, separate and independent from your other obligations and survives termination of this agreement. It is not necessary for us to incur expense or make payment before enforcing a right of indemnity conferred by this agreement. This indemnity does not apply as a result of our fraud, negligence or breach of trust.

Warning Statement for New Zealand Investors

1. This offer to New Zealand investors is a regulated offer made under Australian and New Zealand law. In Australia, this is Chapter 8 of the Corporations Act 2001 (Aust) and regulations made under that Act. In New Zealand, this is subpart 6 of Part 9 of the Financial Markets Conduct Act 2013 and Part 9 of the Financial Markets Conduct Regulations 2014.
2. This offer and the content of the offer document are principally governed by Australian rather than New Zealand law. In the main, the Corporations Act 2001 (Aust) and the regulations made under that Act set out how the offer must be made.
3. There are differences in how financial products are regulated under Australian law. For example, the disclosure of fees for managed investment schemes is different under the Australian regime.
4. The rights, remedies, and compensation arrangements available to New Zealand investors in Australian financial products may differ from the rights, remedies, and compensation arrangements for New Zealand financial products.
5. Both the Australian and New Zealand financial markets regulators have enforcement responsibilities in relation to this offer. If you need to make a complaint about this offer, please contact the Financial Markets Authority, New Zealand (<http://www.fma.govt.nz>). The Australian and New Zealand regulators will work together to settle your complaint.
6. The taxation treatment of Australian financial products is not the same as for New Zealand financial products.
7. If you are uncertain about whether this investment is appropriate for you, you should seek the advice of a financial advice provider.
8. The offer may involve a currency exchange risk. The currency for the financial products is not New Zealand dollars. The value of the financial products will go up or down according to changes in the exchange rate between that currency and New Zealand dollars. These changes may be significant.
9. If you expect the financial products to pay any amounts in a currency that is not New Zealand dollars, you may incur significant fees in having the funds credited to a bank account in New Zealand in New Zealand dollars.
10. The dispute resolution process described in this offer document is available only in Australia and is not available in New Zealand.
